Color Word Recognition and Letter Formation

These pages are designed for kids to either trace the words or to use play dough to practice forming letters and color words.

They work best when they are laminated. Another option is to put each page into a ziplock gallon bag. But, because you can print as many as you want, they can also be used on standard paper. You can show children how to roll the play dough like a snake and then how to shape the letters on the mat. It's great fine motor practice!

Each mat practices these skills for the basic colors:

- letter formation
- color word recognition and tracing
- colored objects
