Easy and fun kids crafts with *templates*

Numbers

First, I want to say **Thank You** so much for spending your hard-earned money on these educational worksheets. I really appreciate your business and I love making products for you and your kids.

These **Number Practice pages** are designed to make number recognition hands-on and fun! Your children will love using these pages to learn numbers and practice writing them. Children will build number recognition and writing skills as they trace, color, dab, and count their way through numbers 0-20. Thank you again and enjoy!

Every item in the Table of Contents is clickable:

Table of Contents

Numbers with 10 Frames (1-20)	3
Number Picture Circle (1-10)	24
Number Tracing (1-20)	35
Fun Number Recognition & Tracing (1-20)	56
Number Dab (0-20)	77

Number Dab (0-20)

My kids love using bingo daubers! That's why I created these pages. These pages are designed for kids to use bingo daubers, crayons, stickers, or anything to cover the correct number.

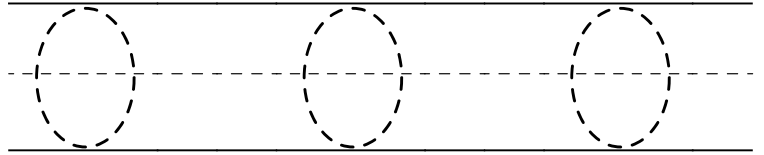

The following pages practice these skills for the numbers 0-20:

- number formation
- shows the number word
- number tracing practice
- number recognition with dabbing

Playdoh Mats (1-10)

These pages are designed for kids to use play dough to practice forming numbers. They work best when they are laminated. Another option is to put each page into a ziplock gallon bag. But, because you can print as many as you want, they can also be used on standard paper. You can show children how to roll the play dough like a snake and then how to shape the numbers on the mat. It's great for fine motor practice!

Each mat practices these skills for the numbers 0-10:

- number formation
- number word recognition and tracing
- counting
- ten frames - add one dot of playdough to each square until you reach the number.

1. Form the number with playdough.

2. Read and trace it.

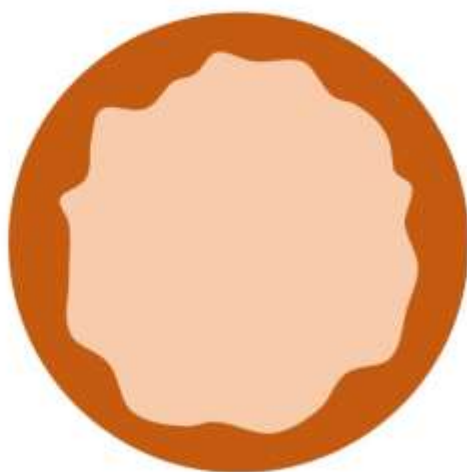

ONE

ONE

3. Count how many hearts you see.

4. Add the right number of chocolate chips to the cookie.

5. Ten frame it.

1. Form the number with playdough.

2. Read and trace it.

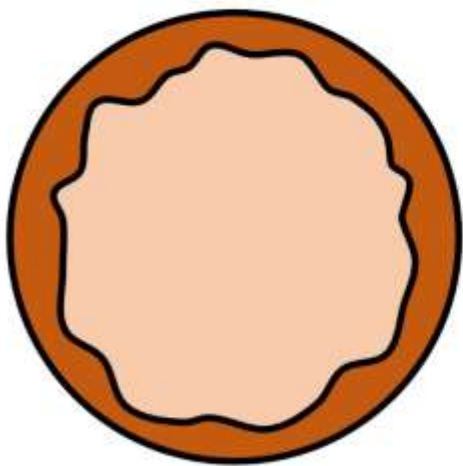

TWO

TWO

3. Count how many hearts you see.

4. Add the right number of chocolate chips to the cookie.

5. Ten frame it.

Number Matching (1-10)

These pages are designed to practice the skills for counting, number recognition, and matching. There are two formats: 1. Count the pictures and draw a line to the matching number 2. Count and clip (read more below)

Count and Clip

These pages are designed to be printed and cut apart. They can be used multiple ways: Children can circle the correct number, clip a clothespin on the number that matches the group, or just cover the number with a counter. If you plan to use them frequently, you can laminate them.

Number Coloring Pages (1-10)

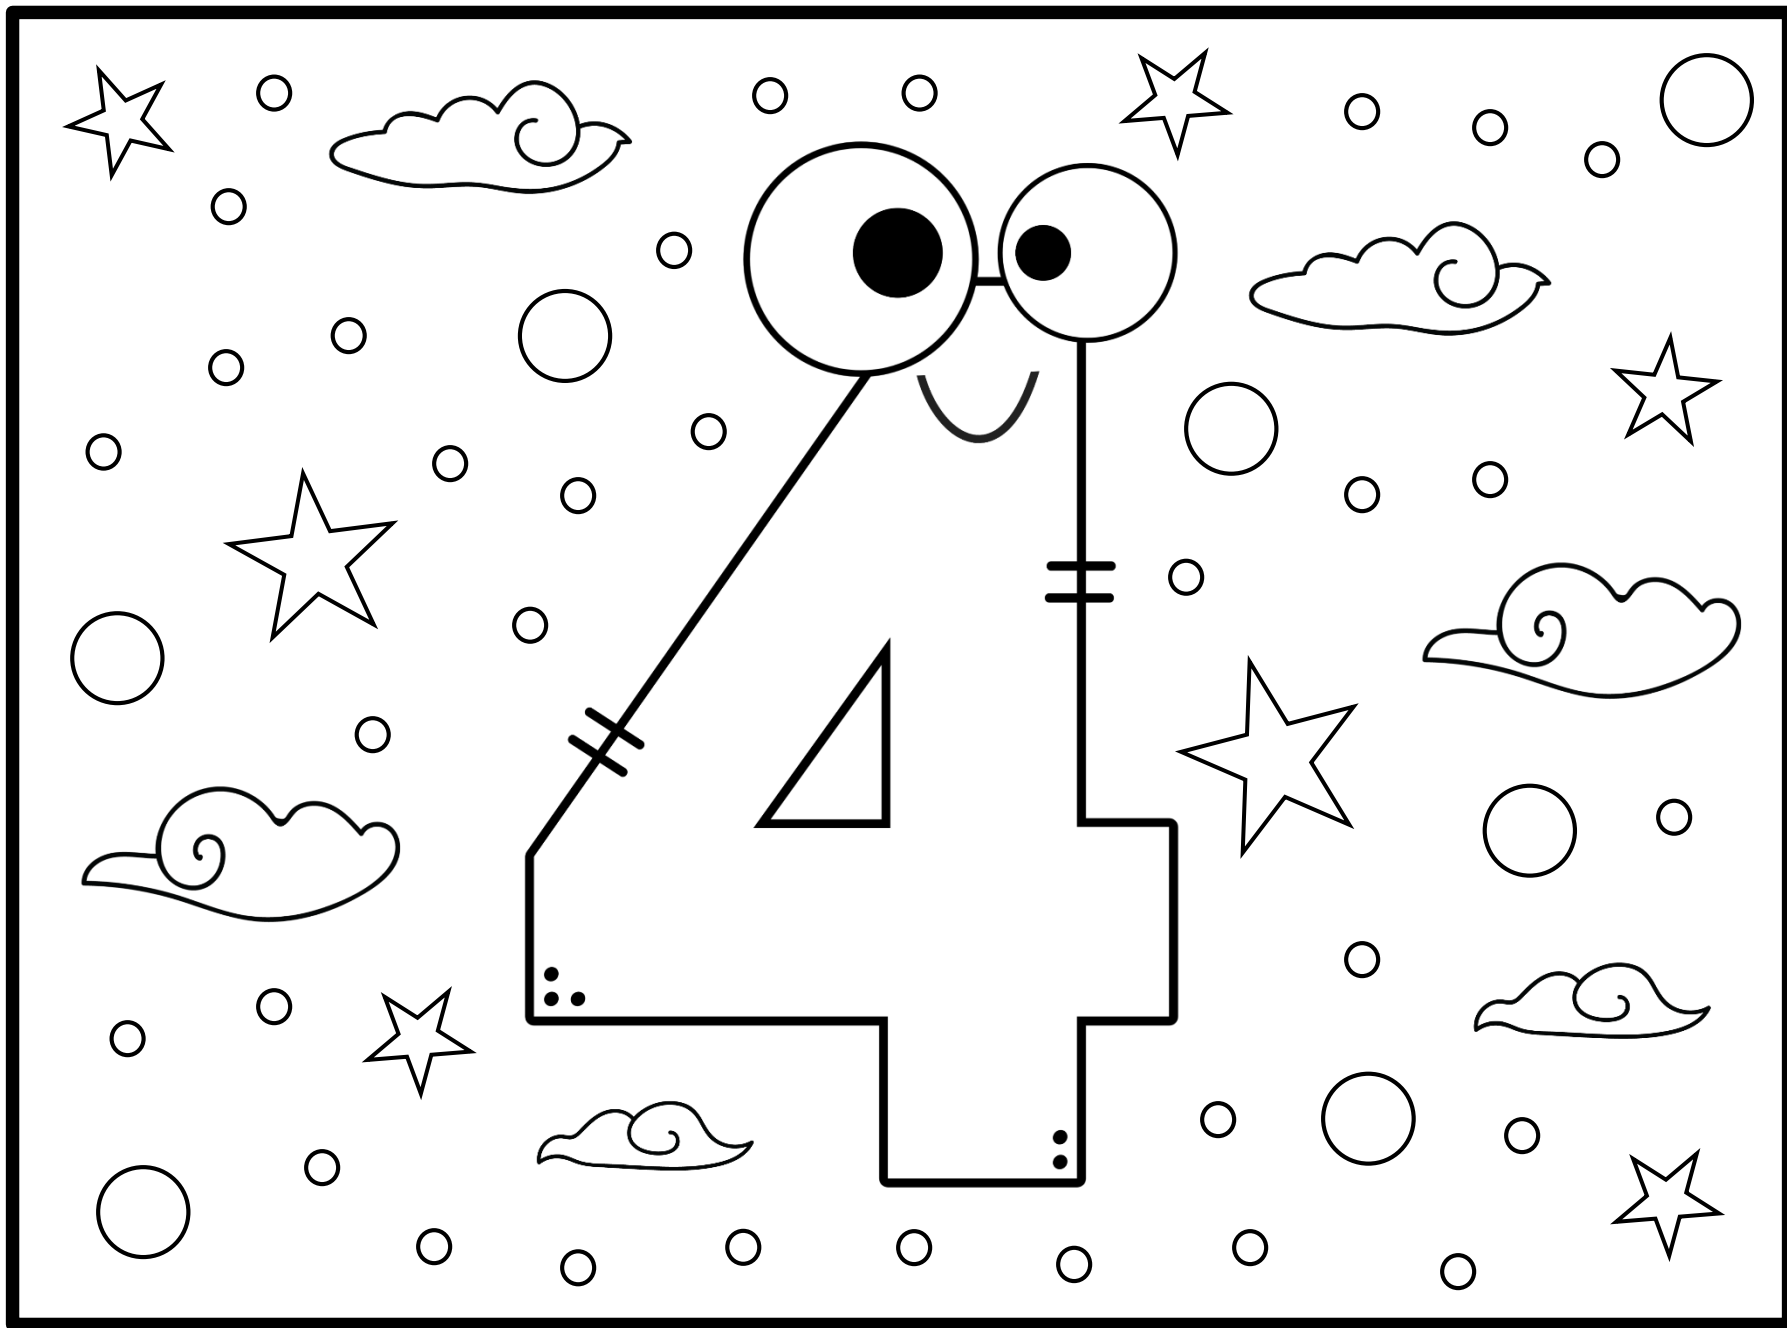

Children will enjoy coloring these cute number coloring pages.

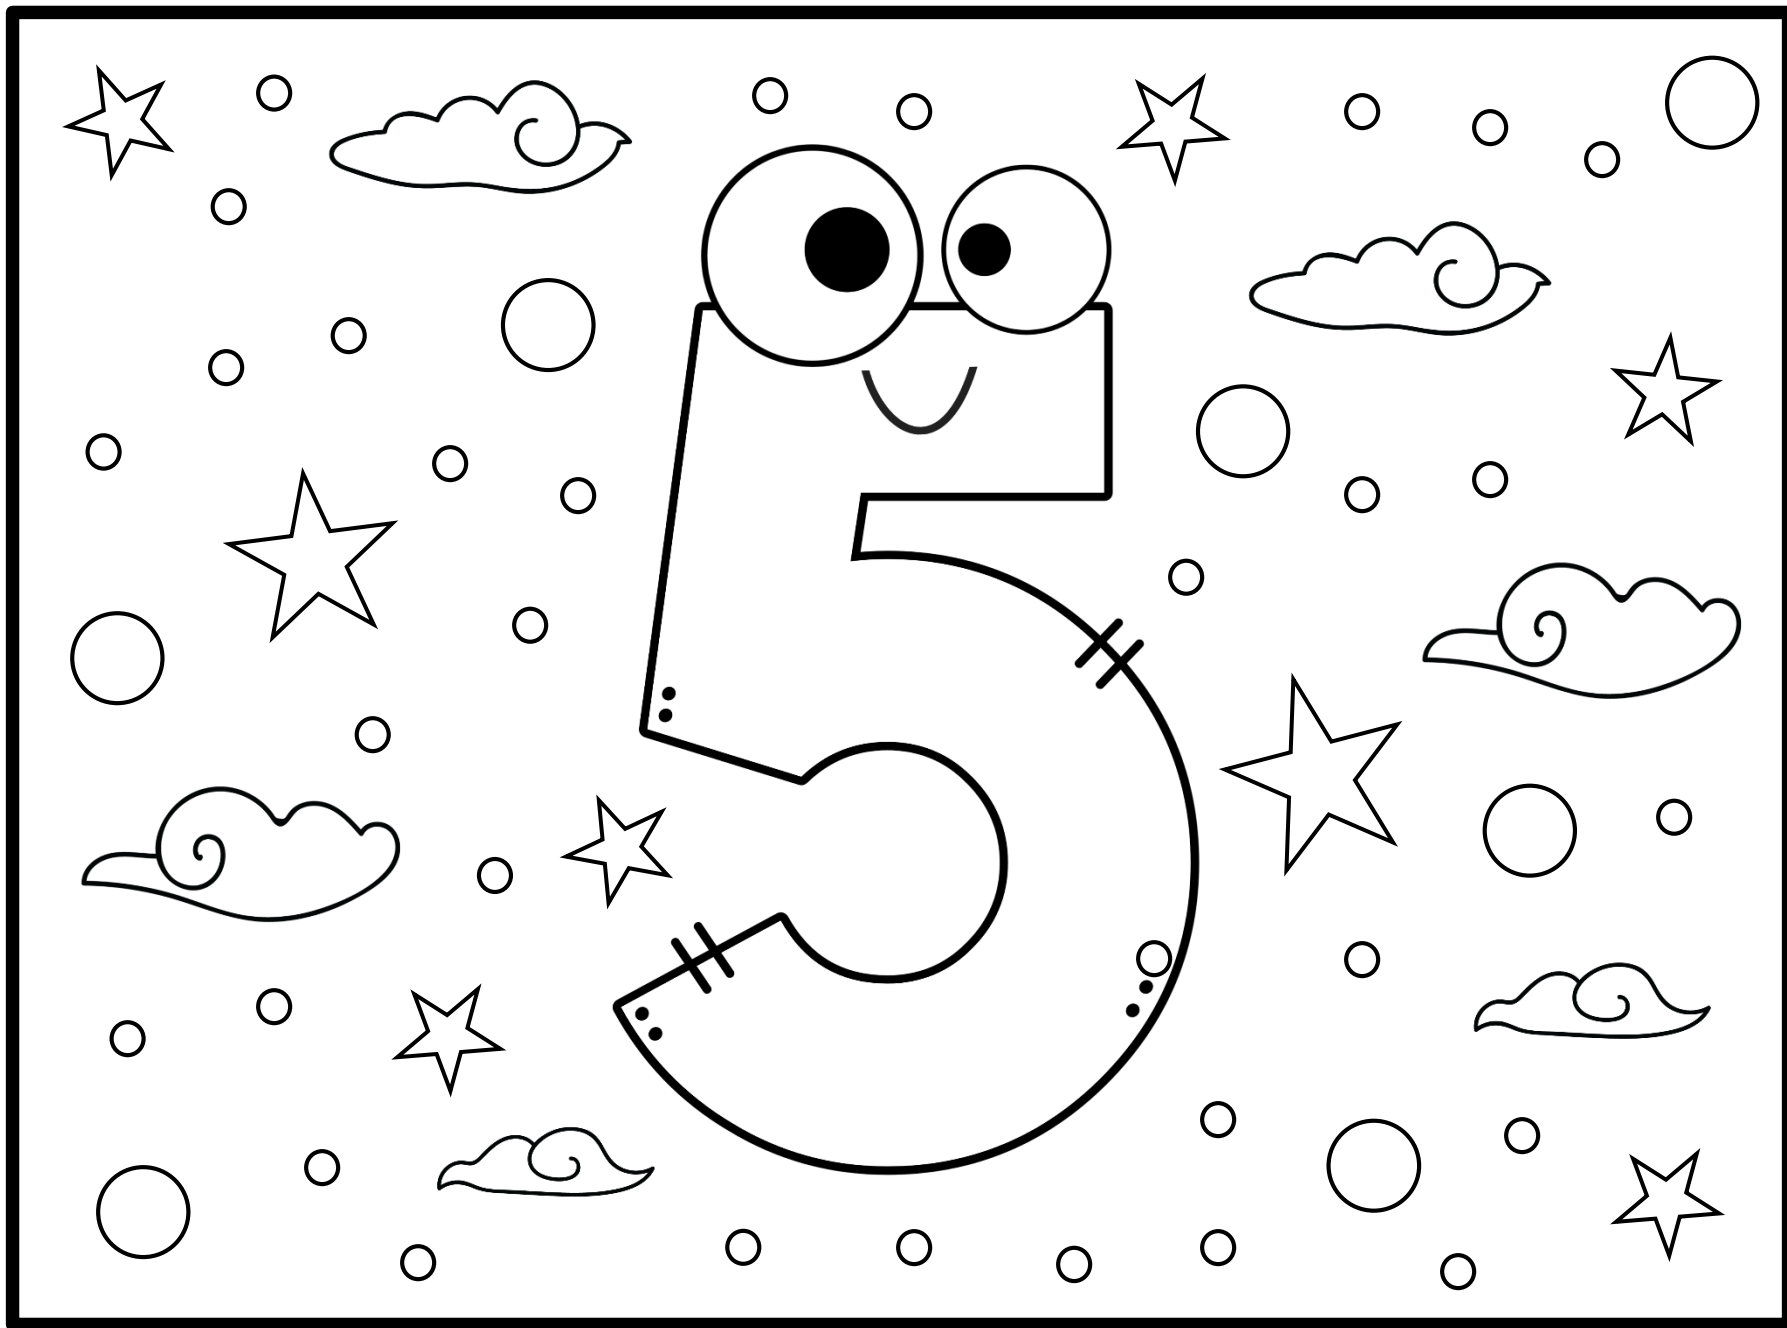

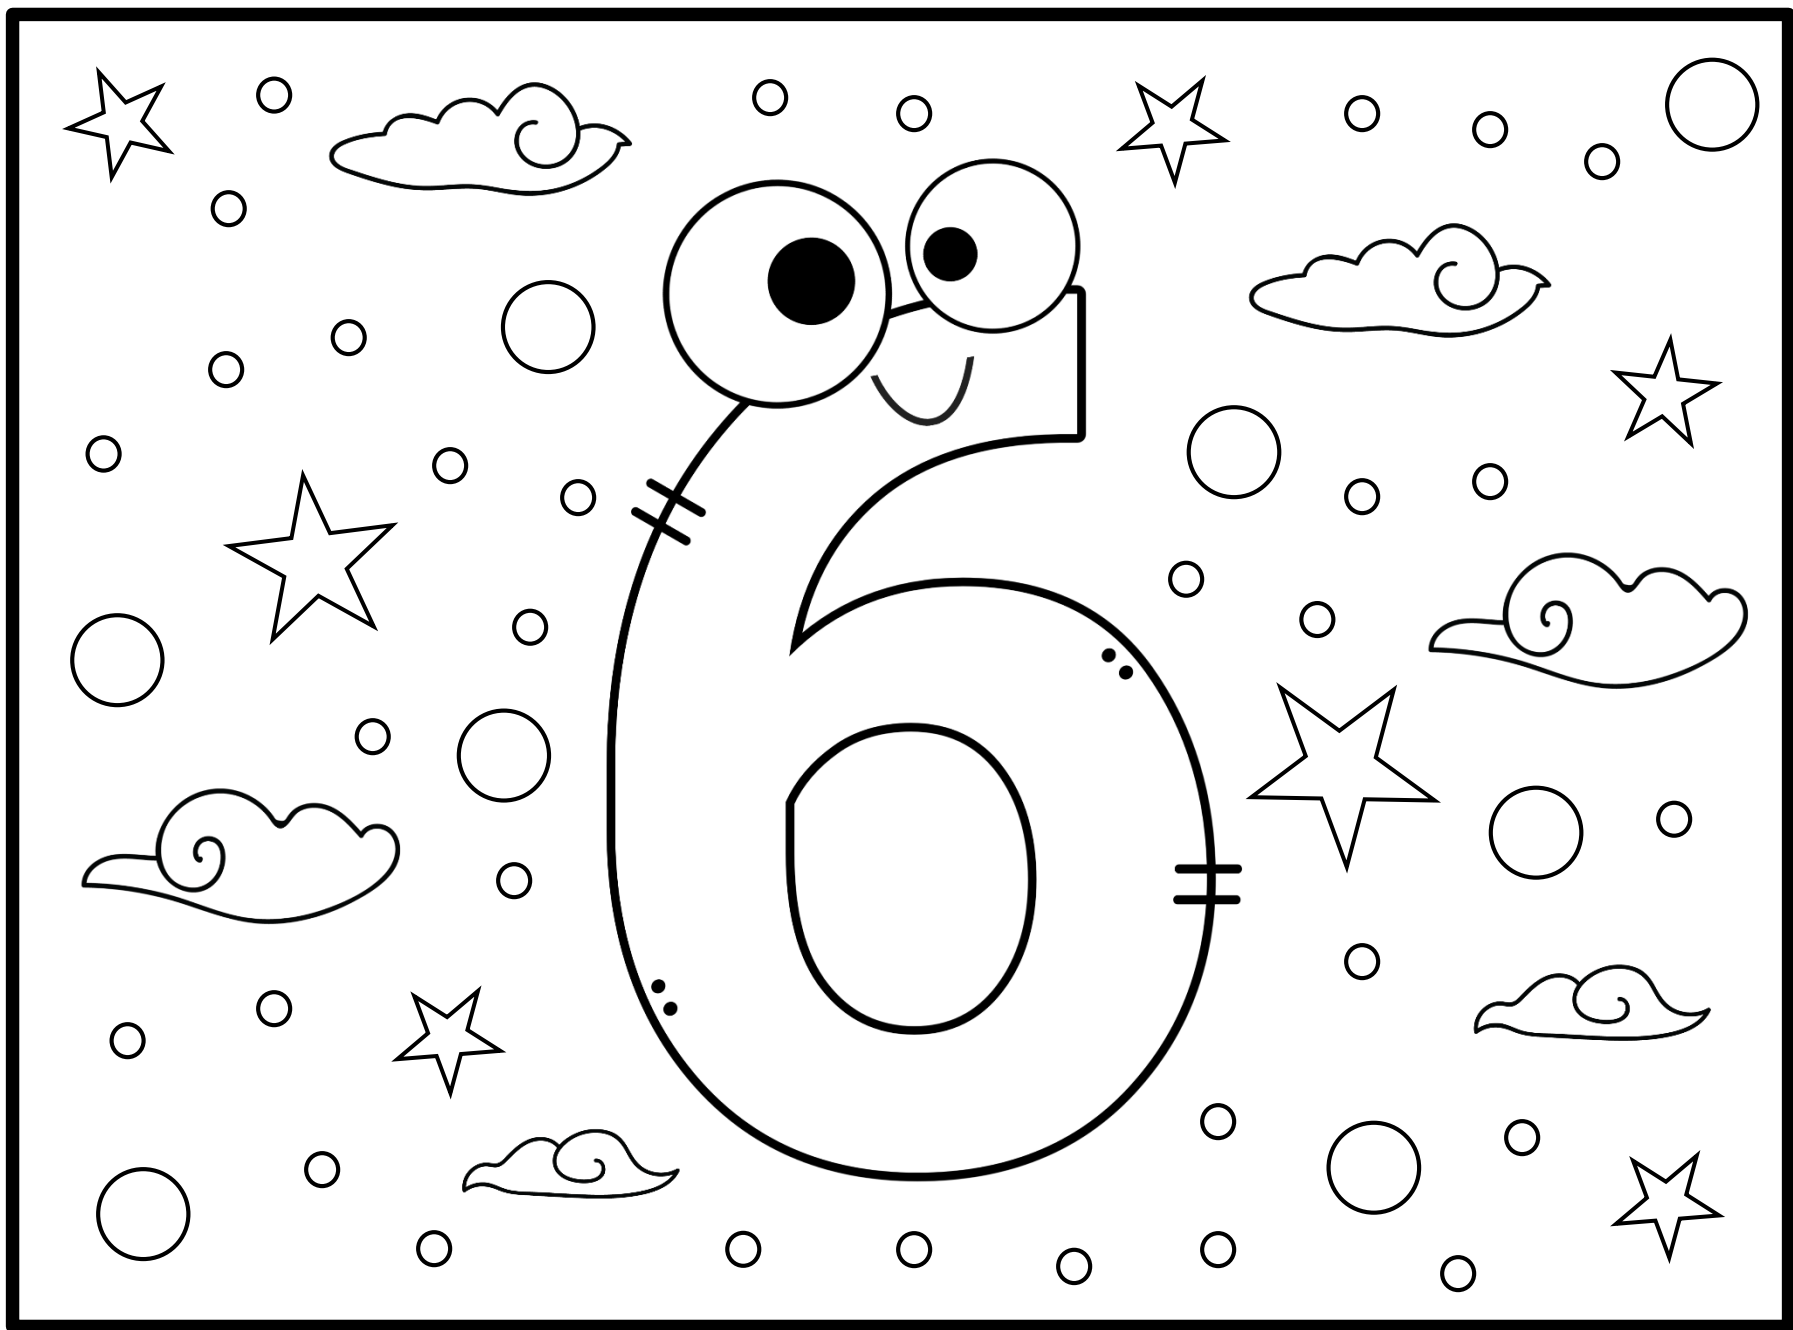

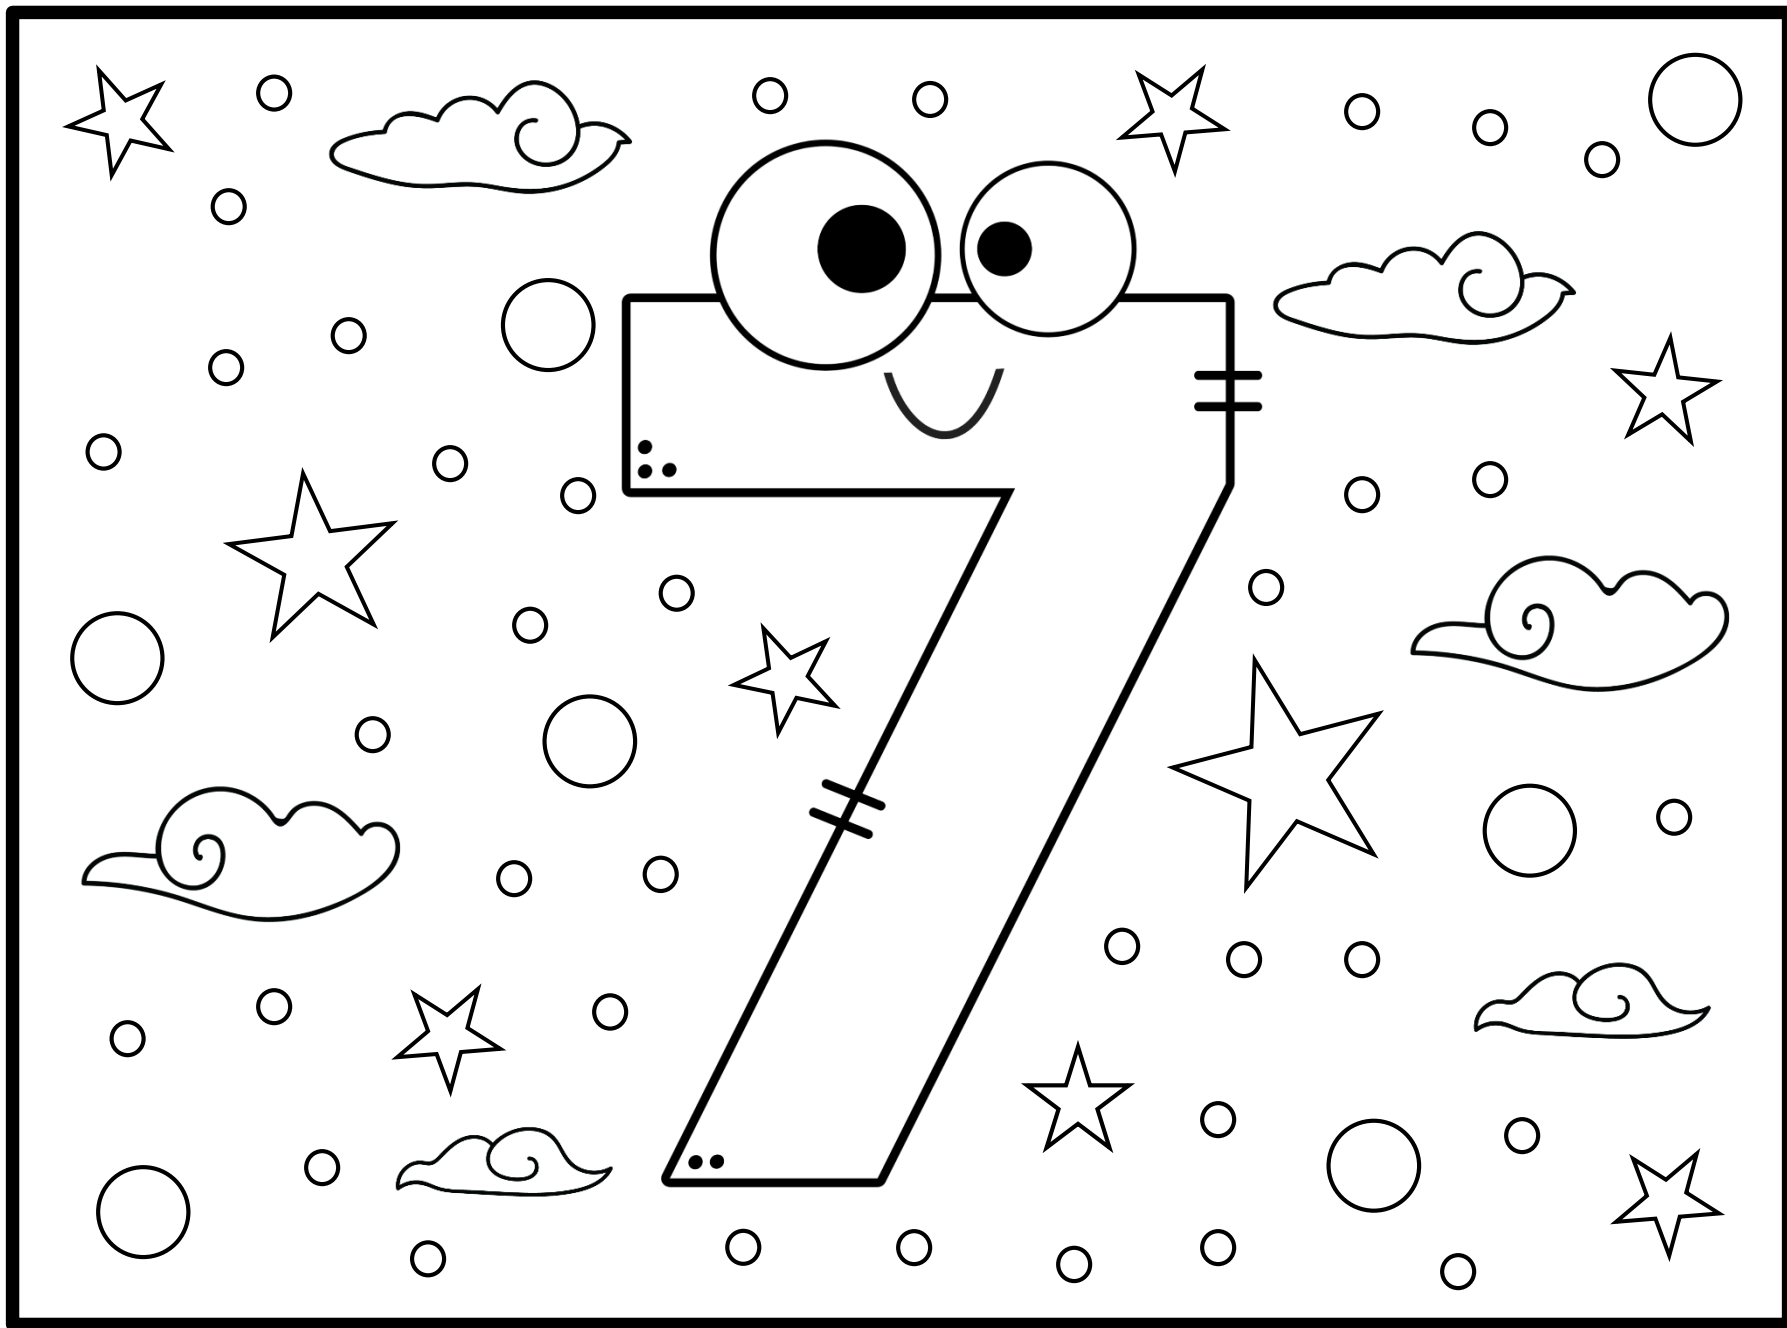

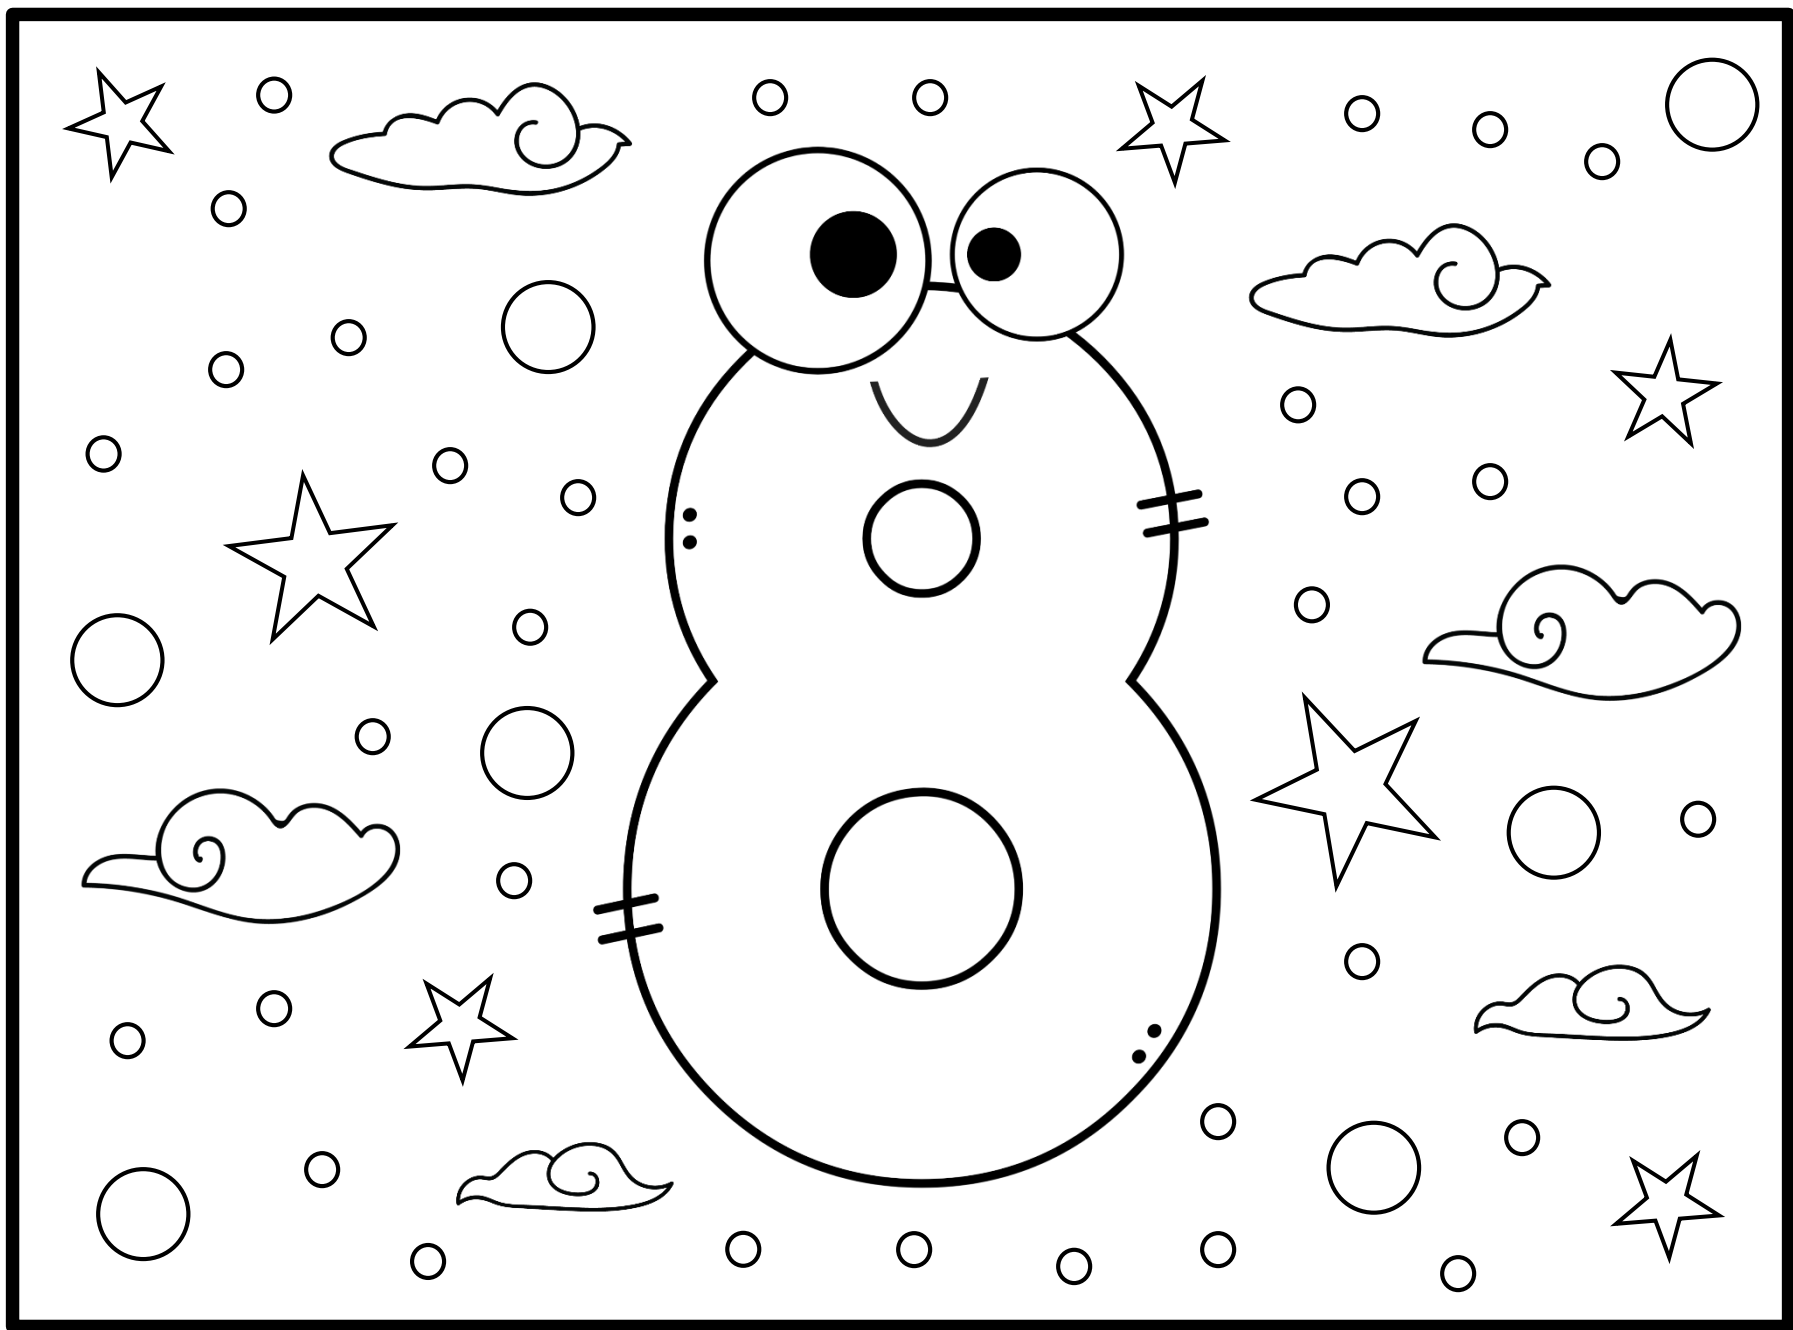

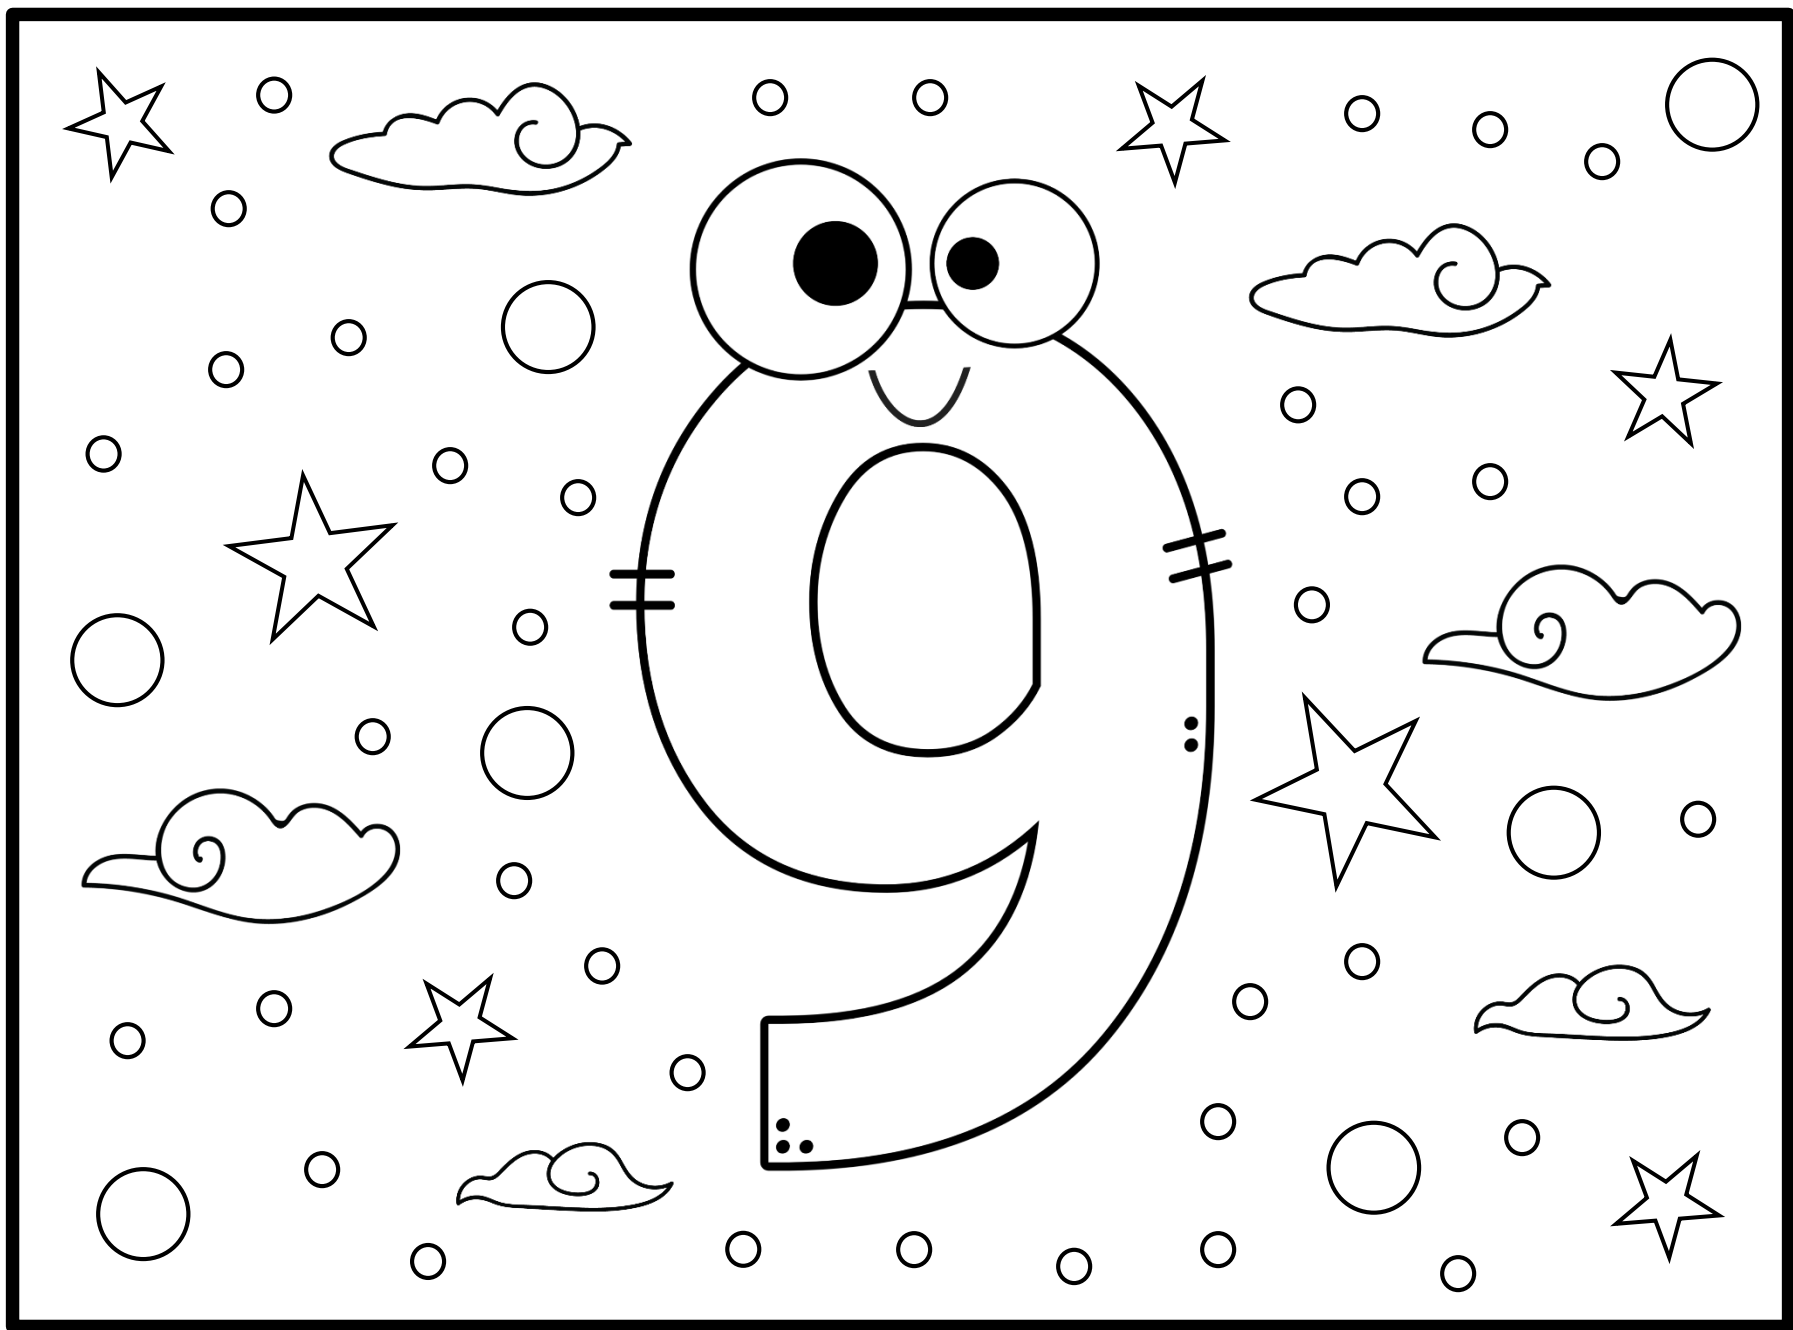

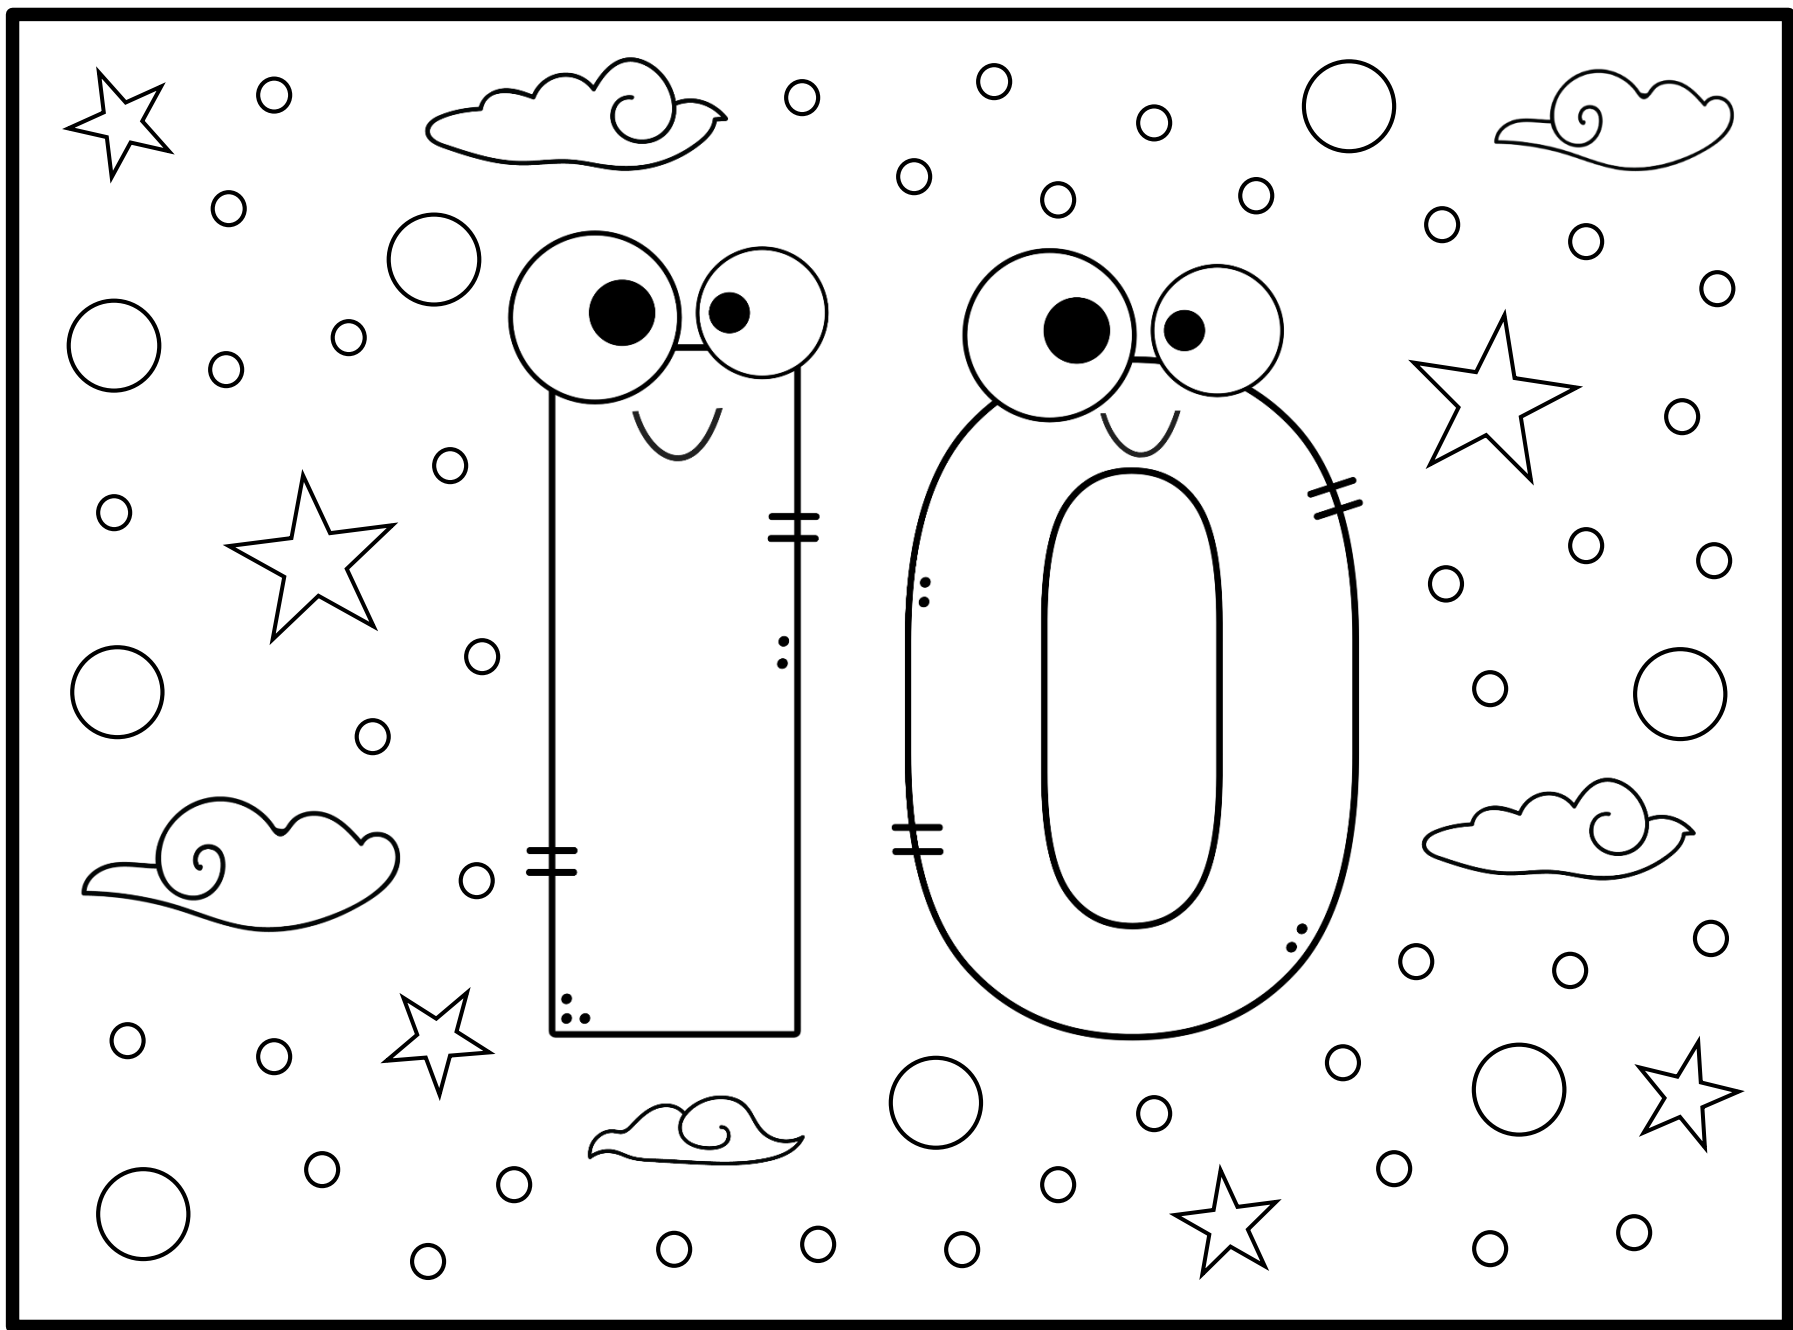

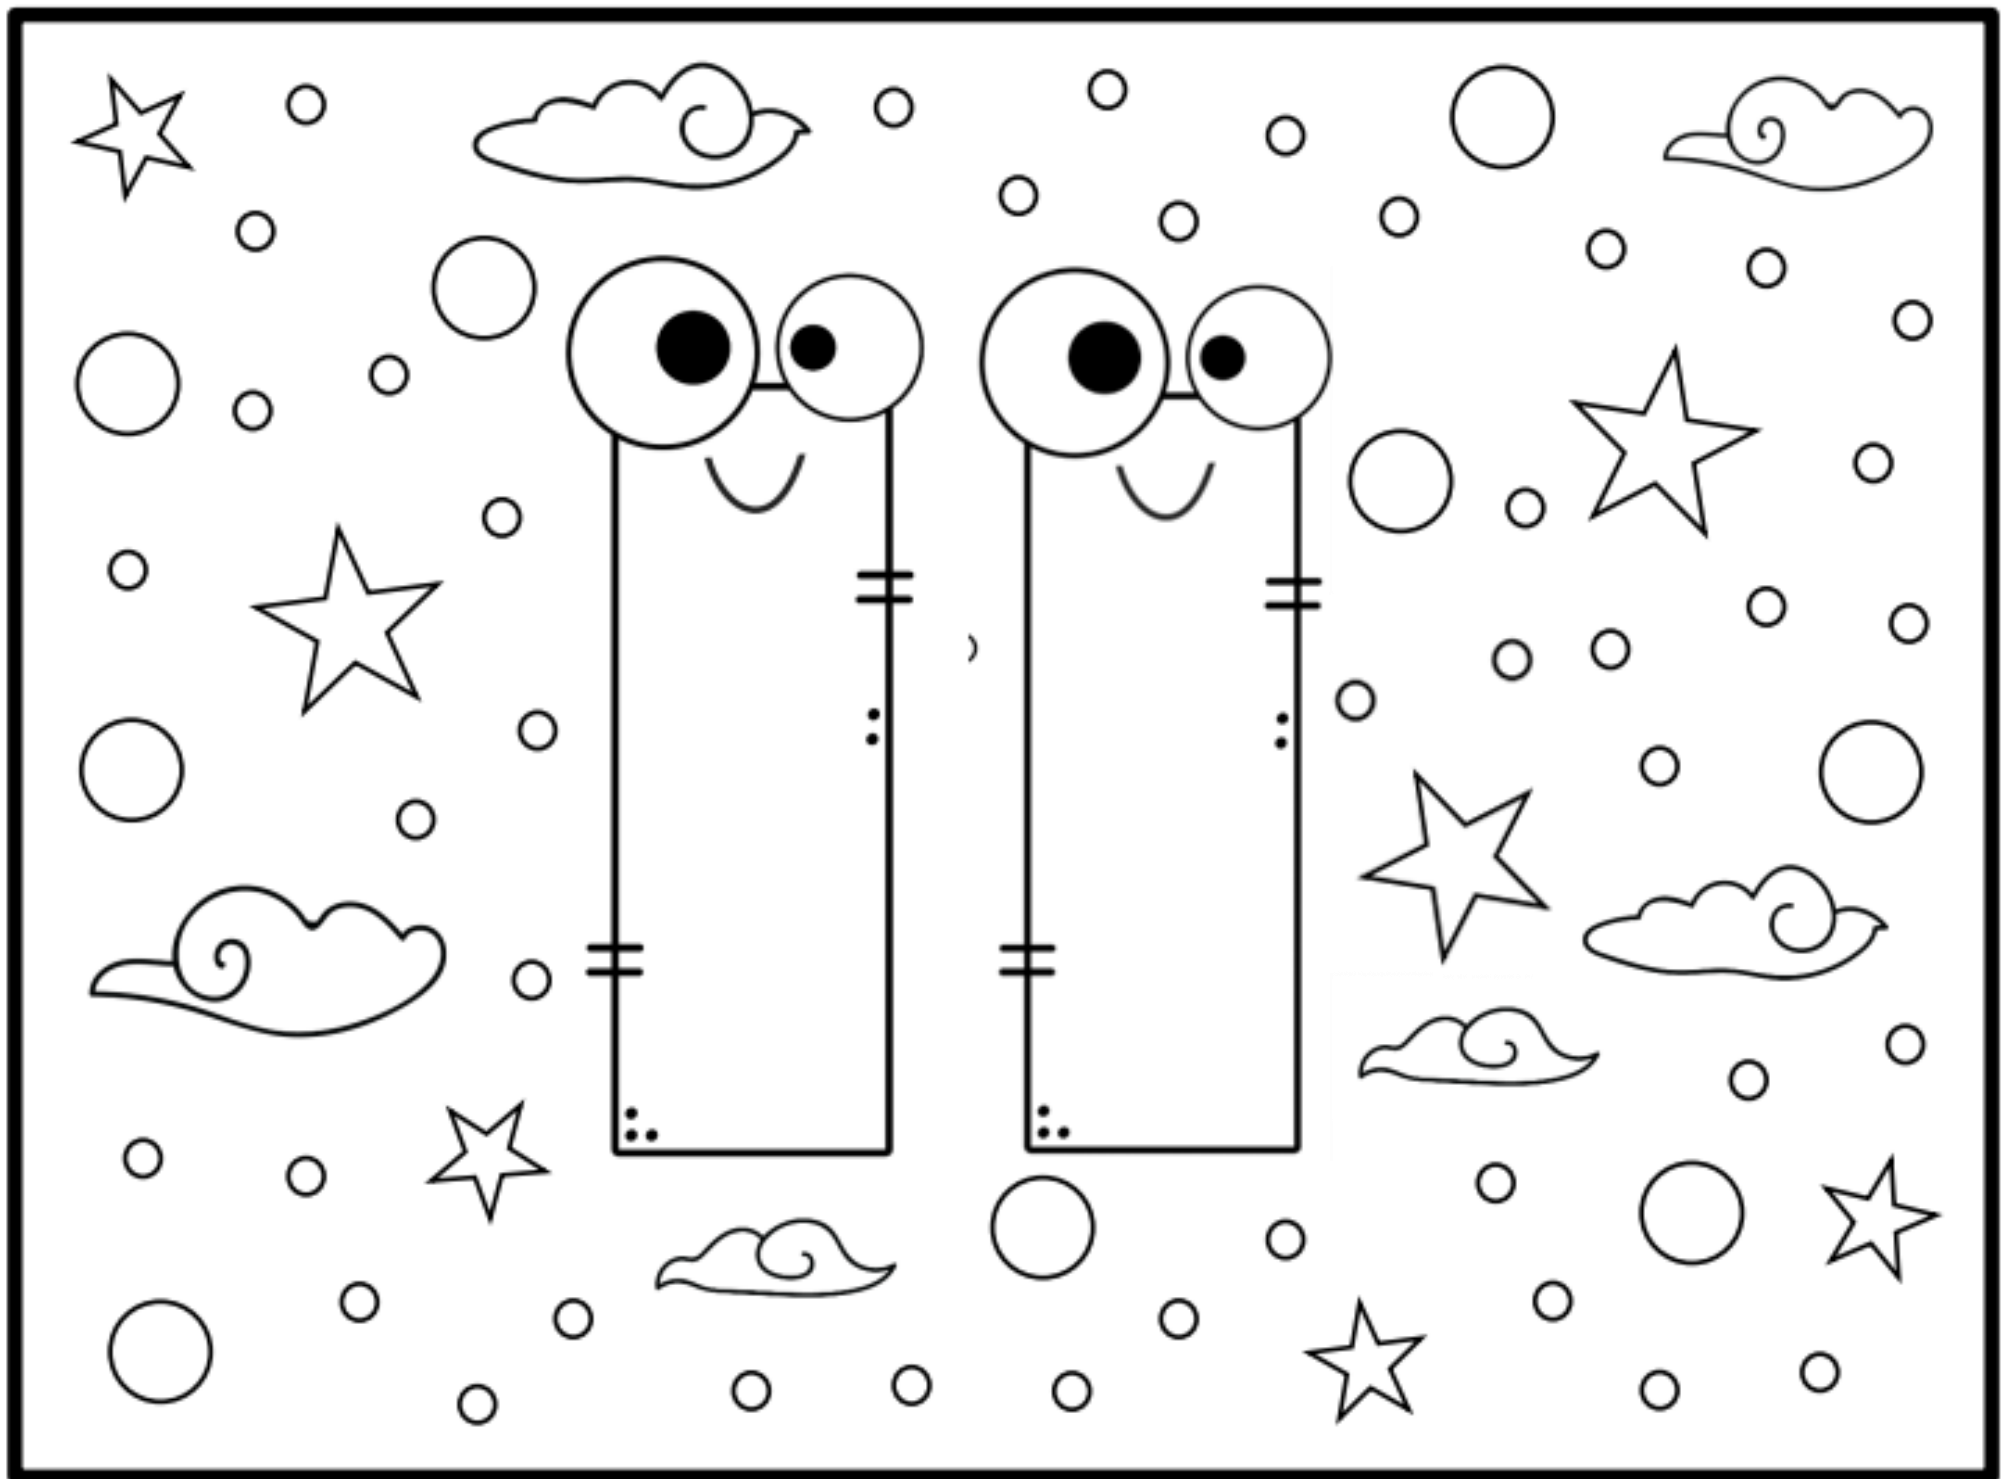

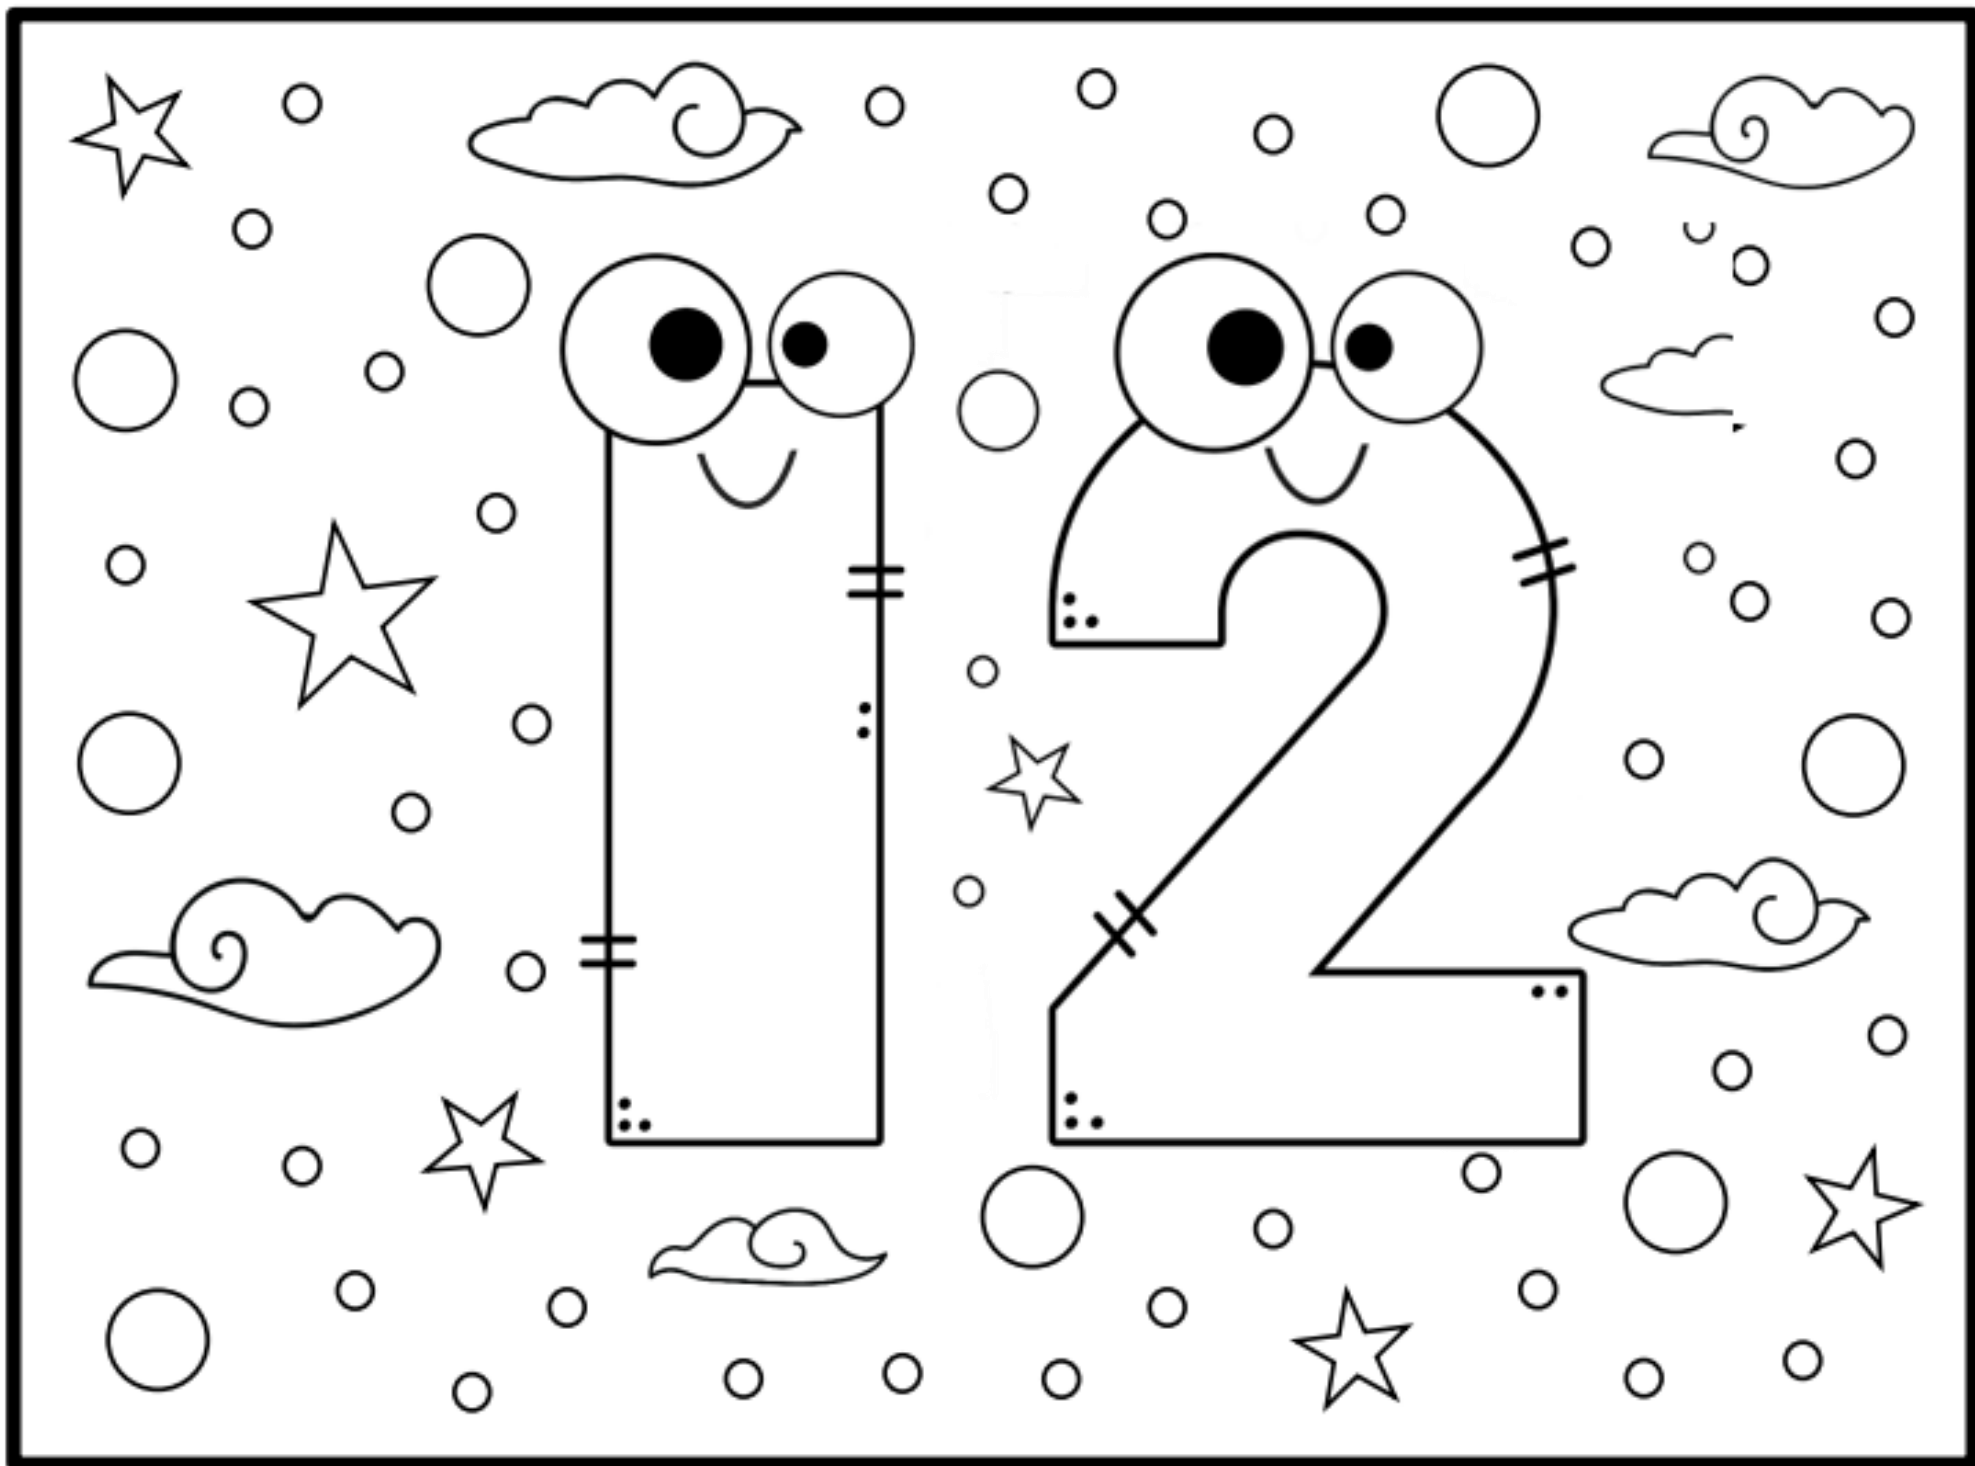

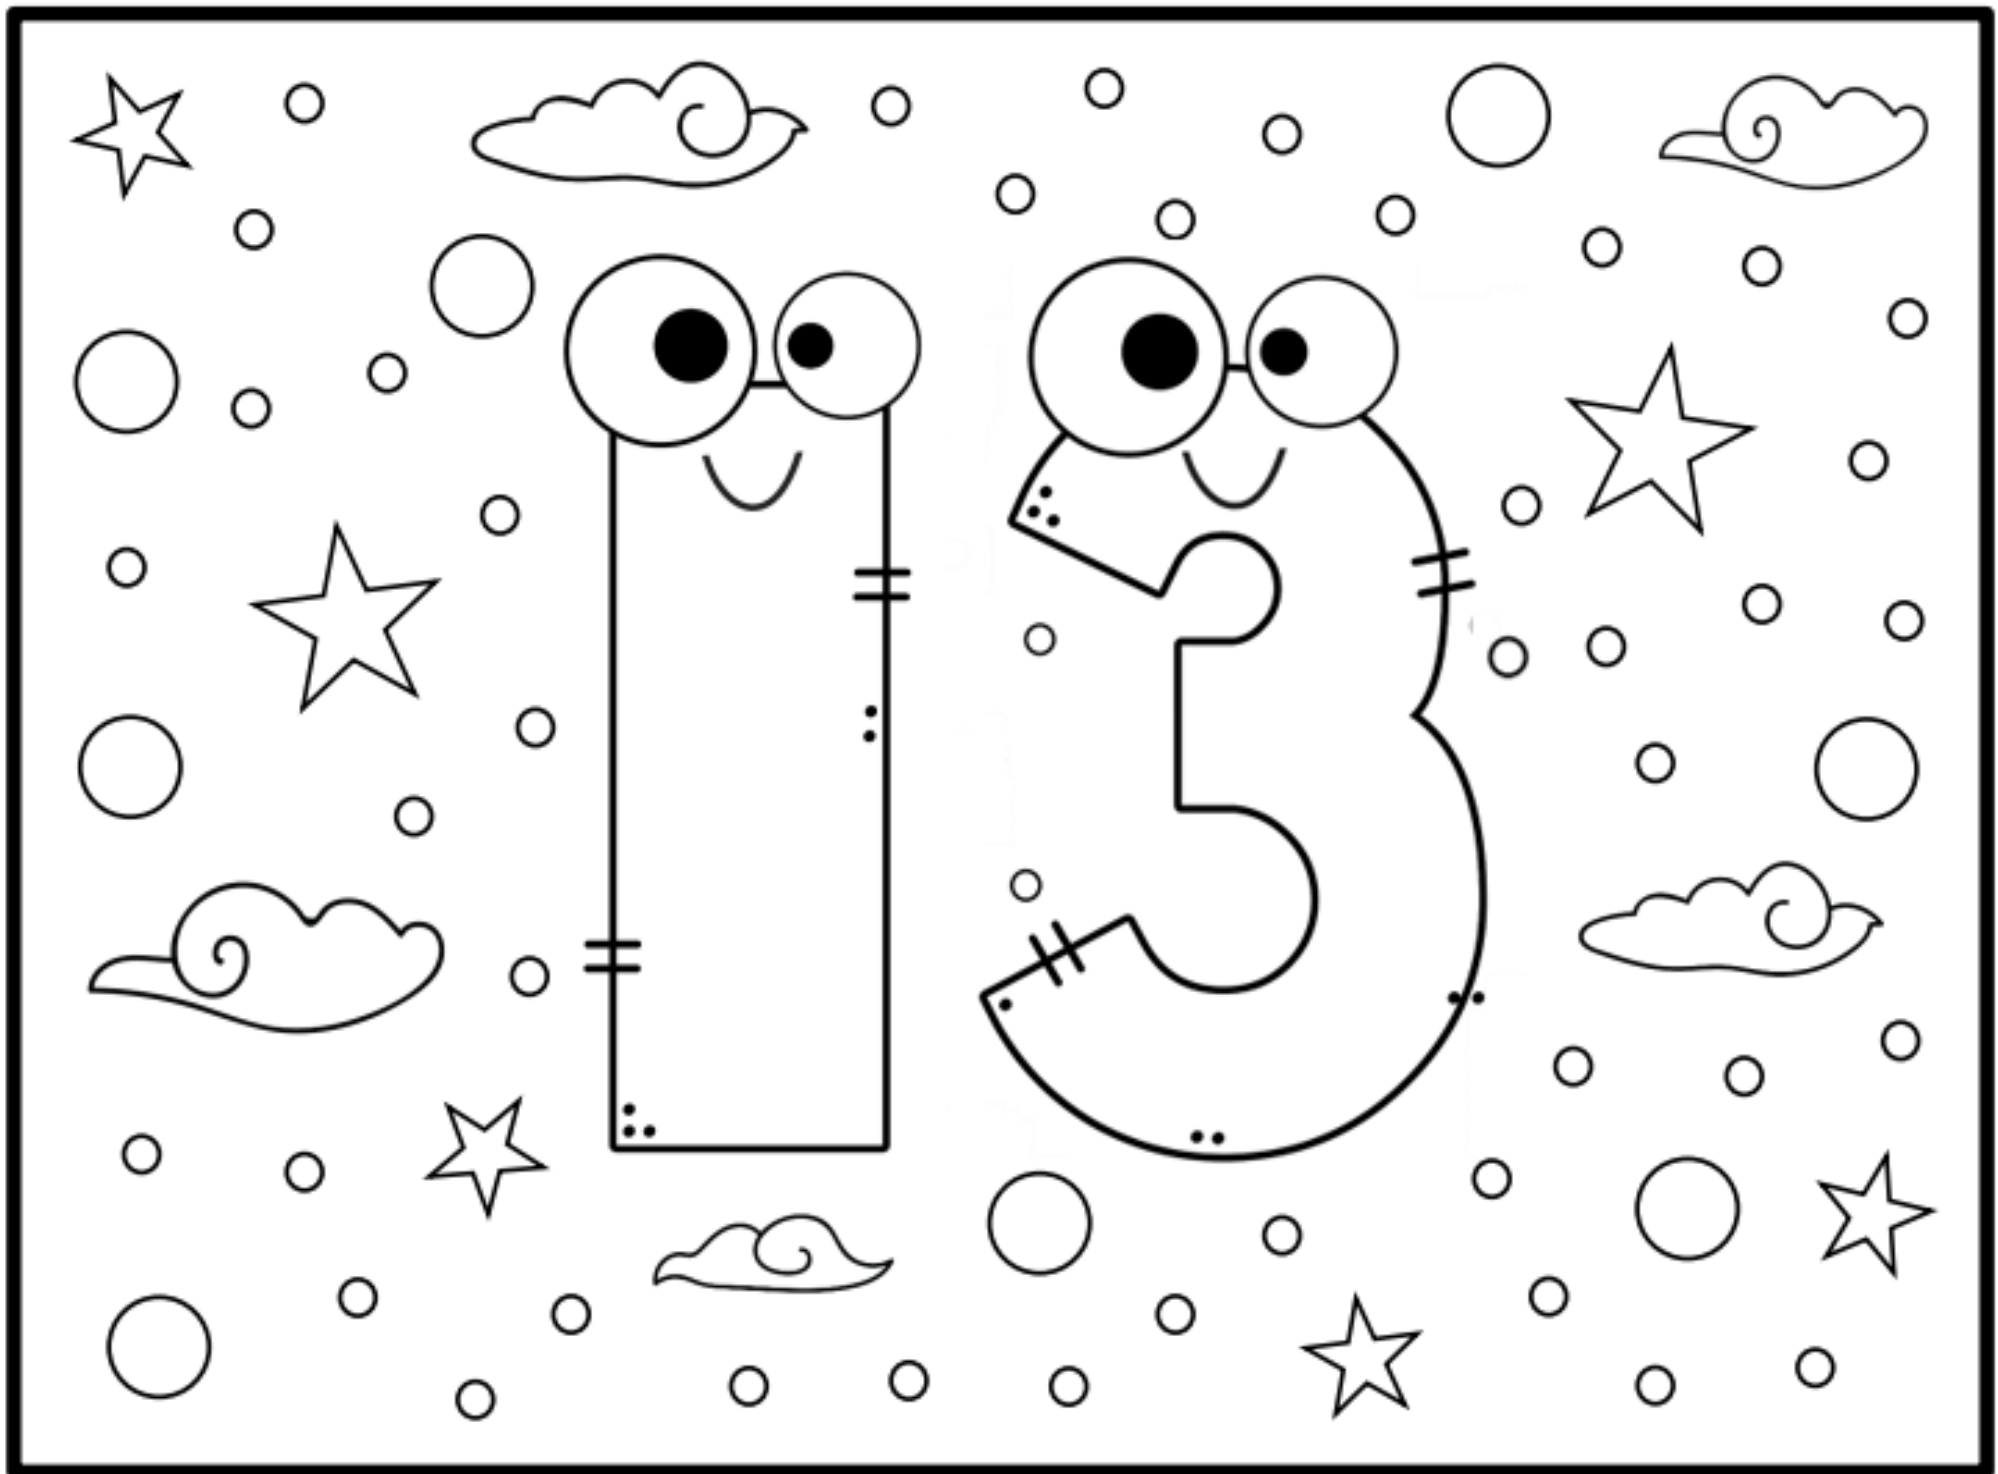

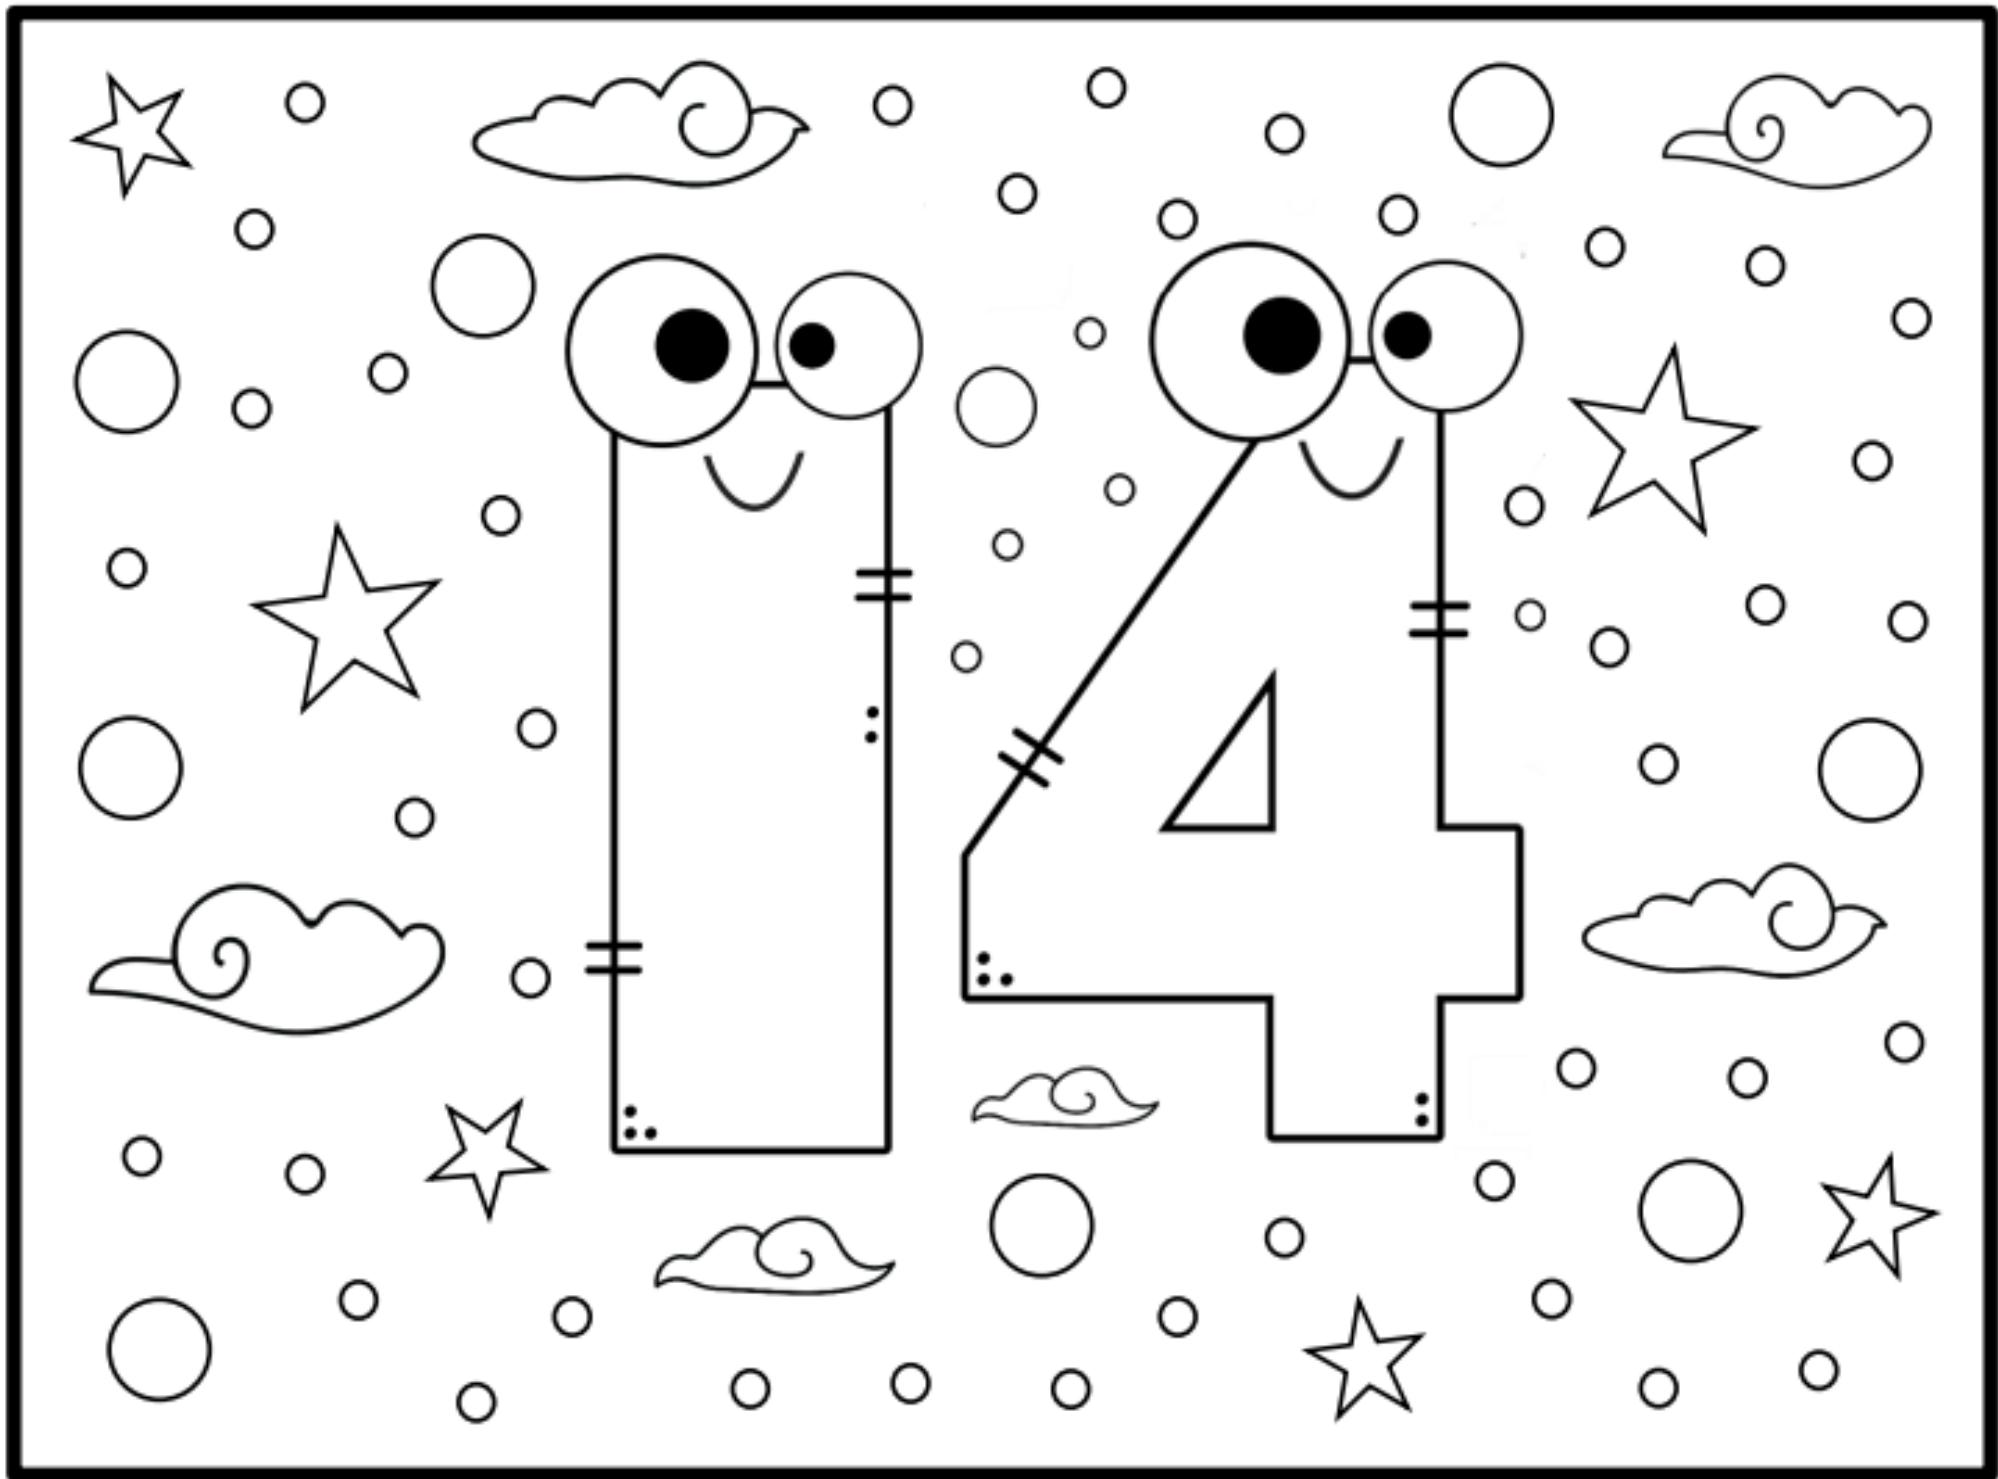

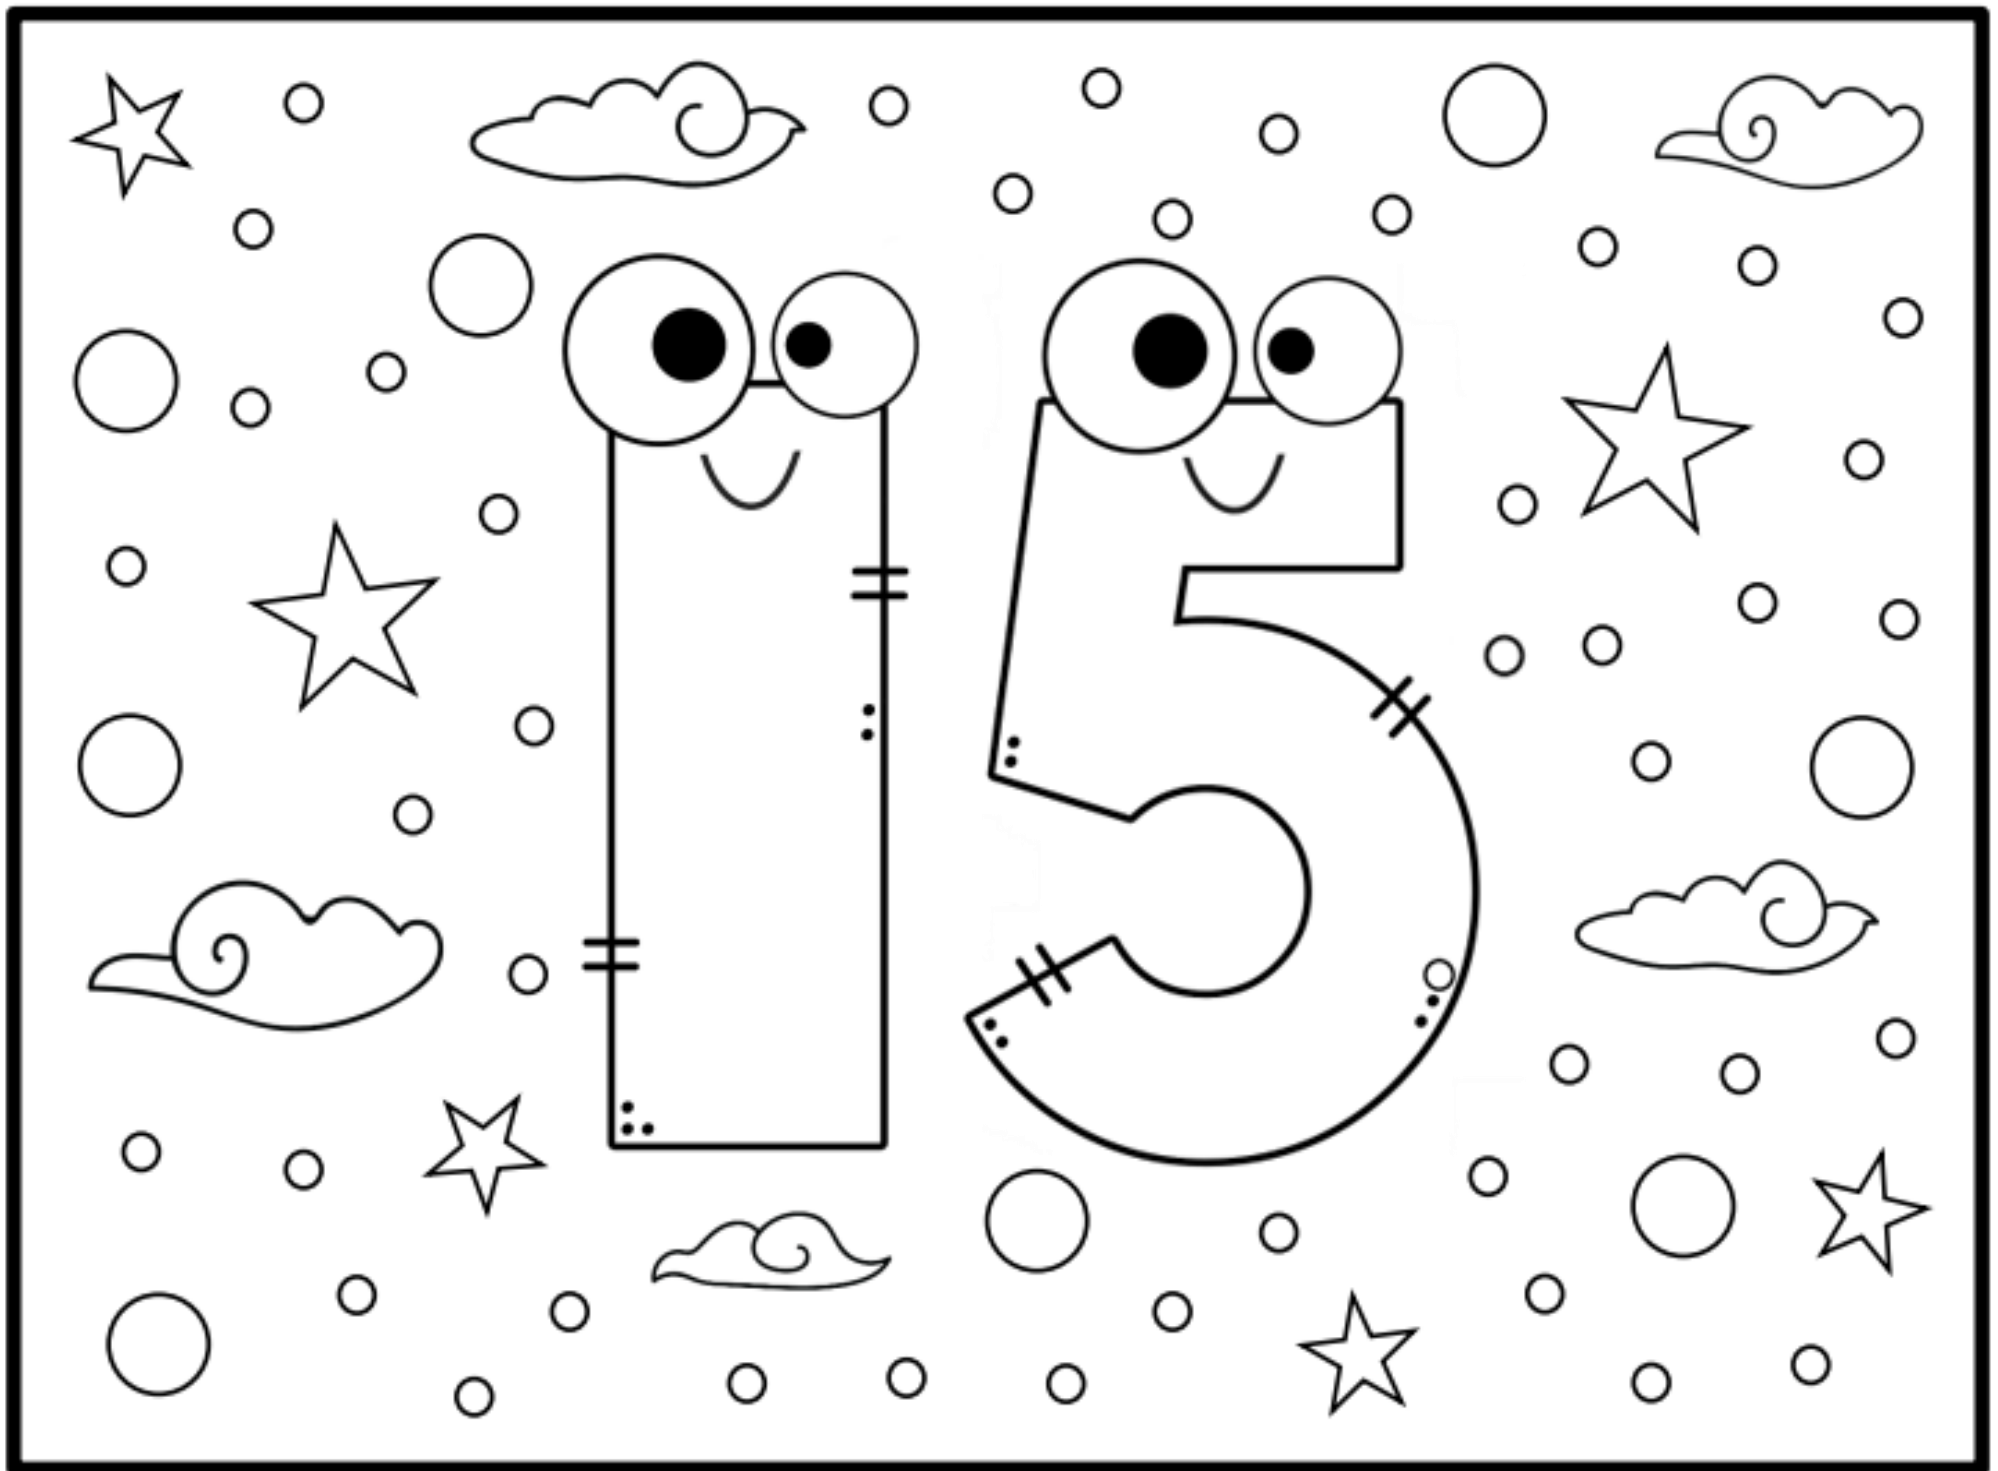

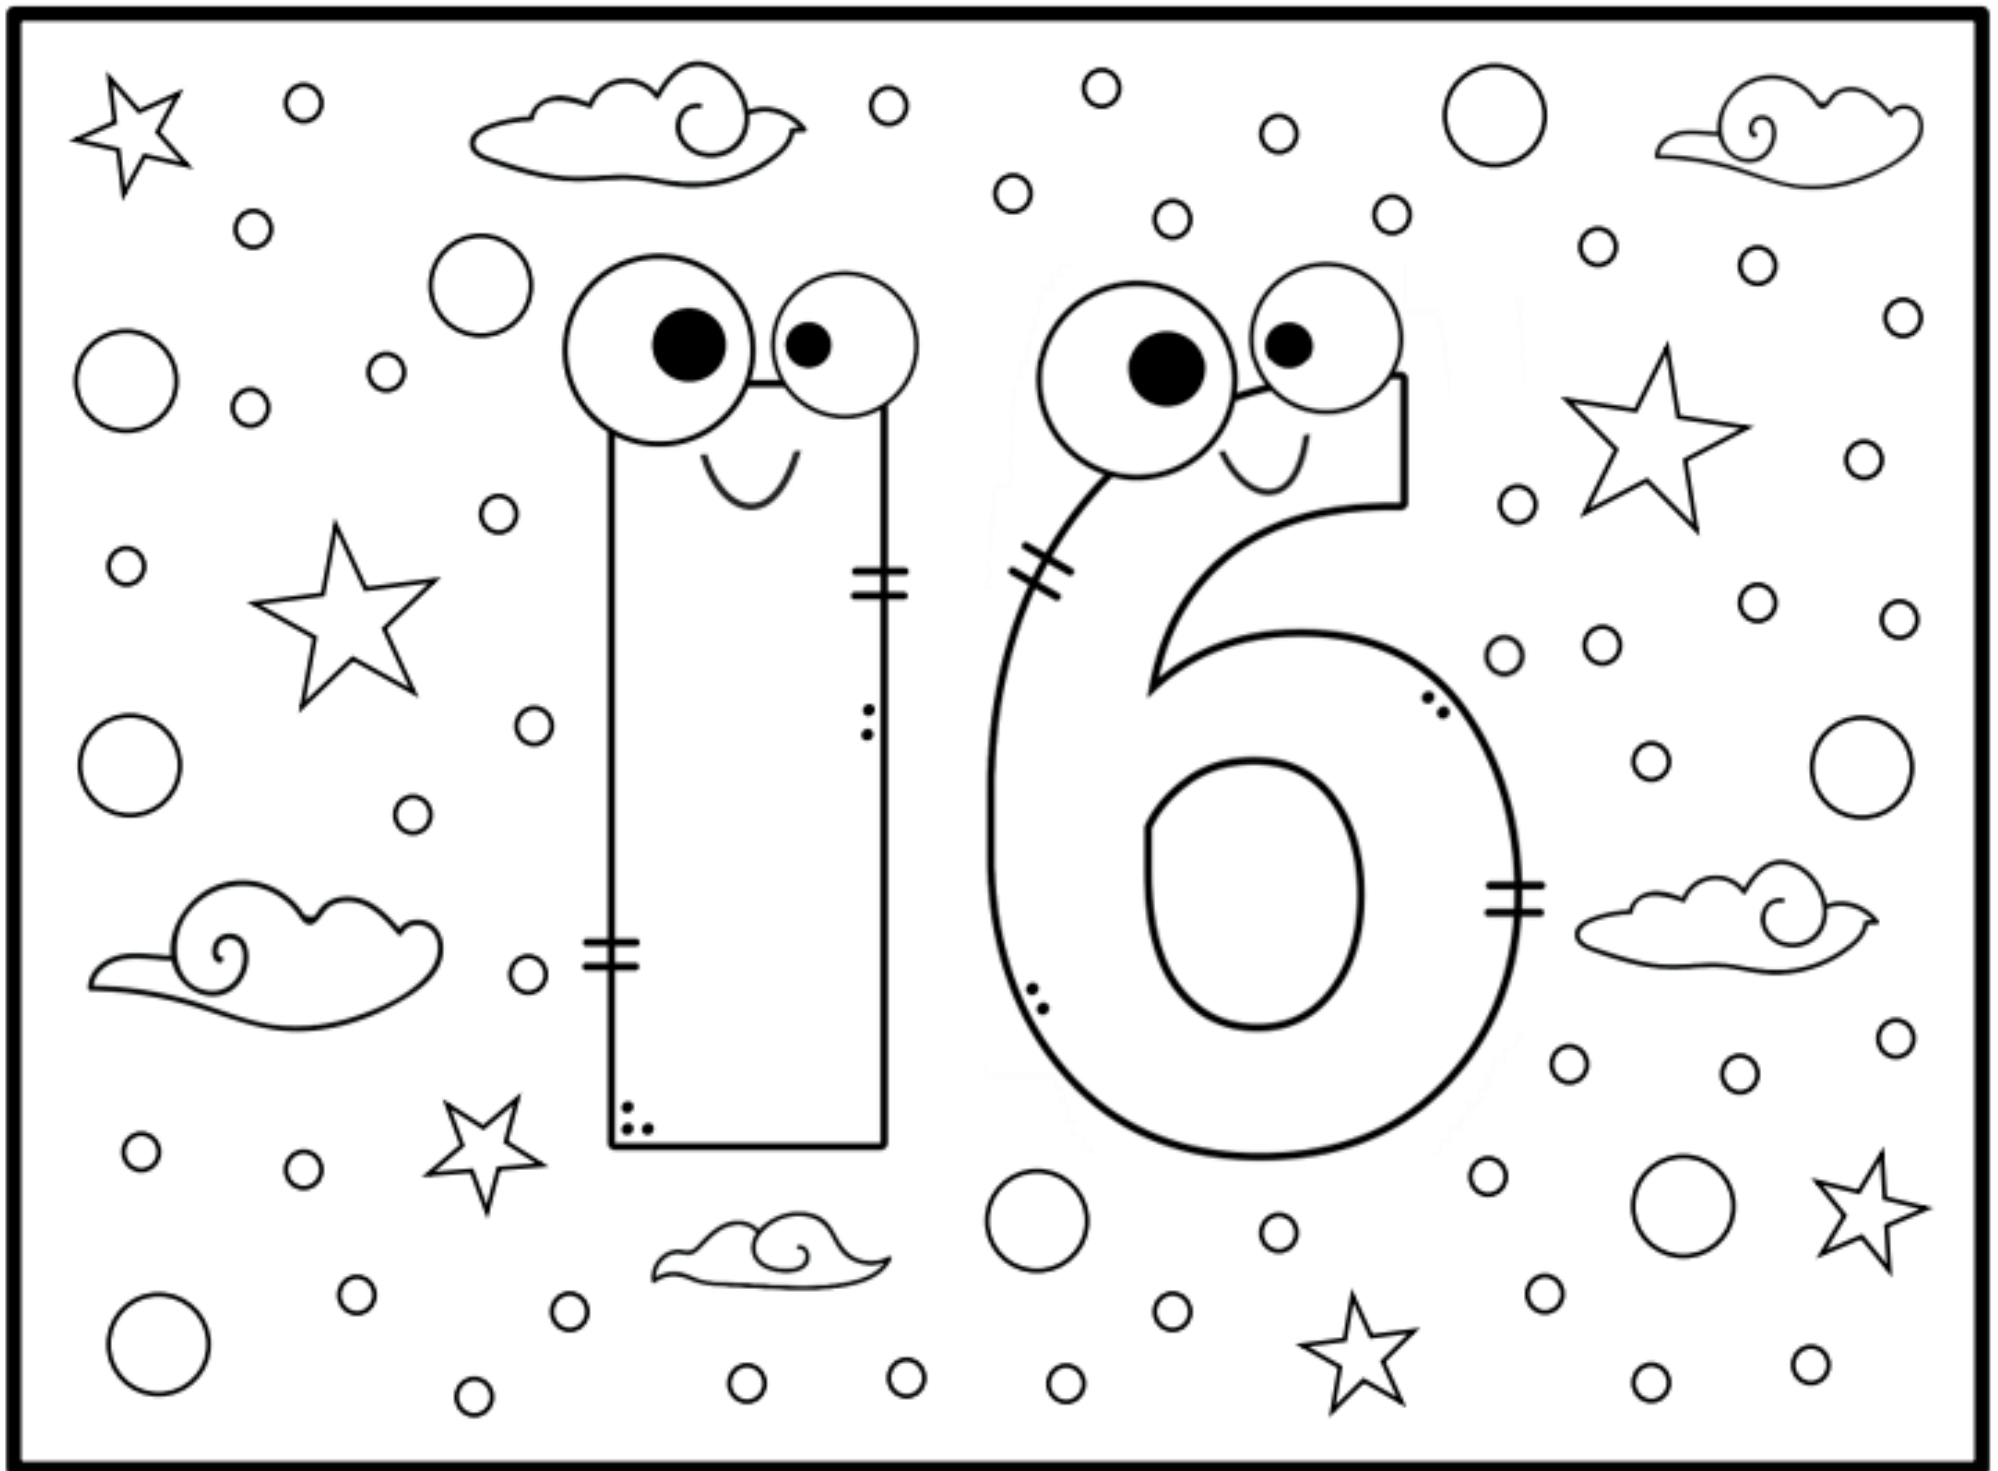

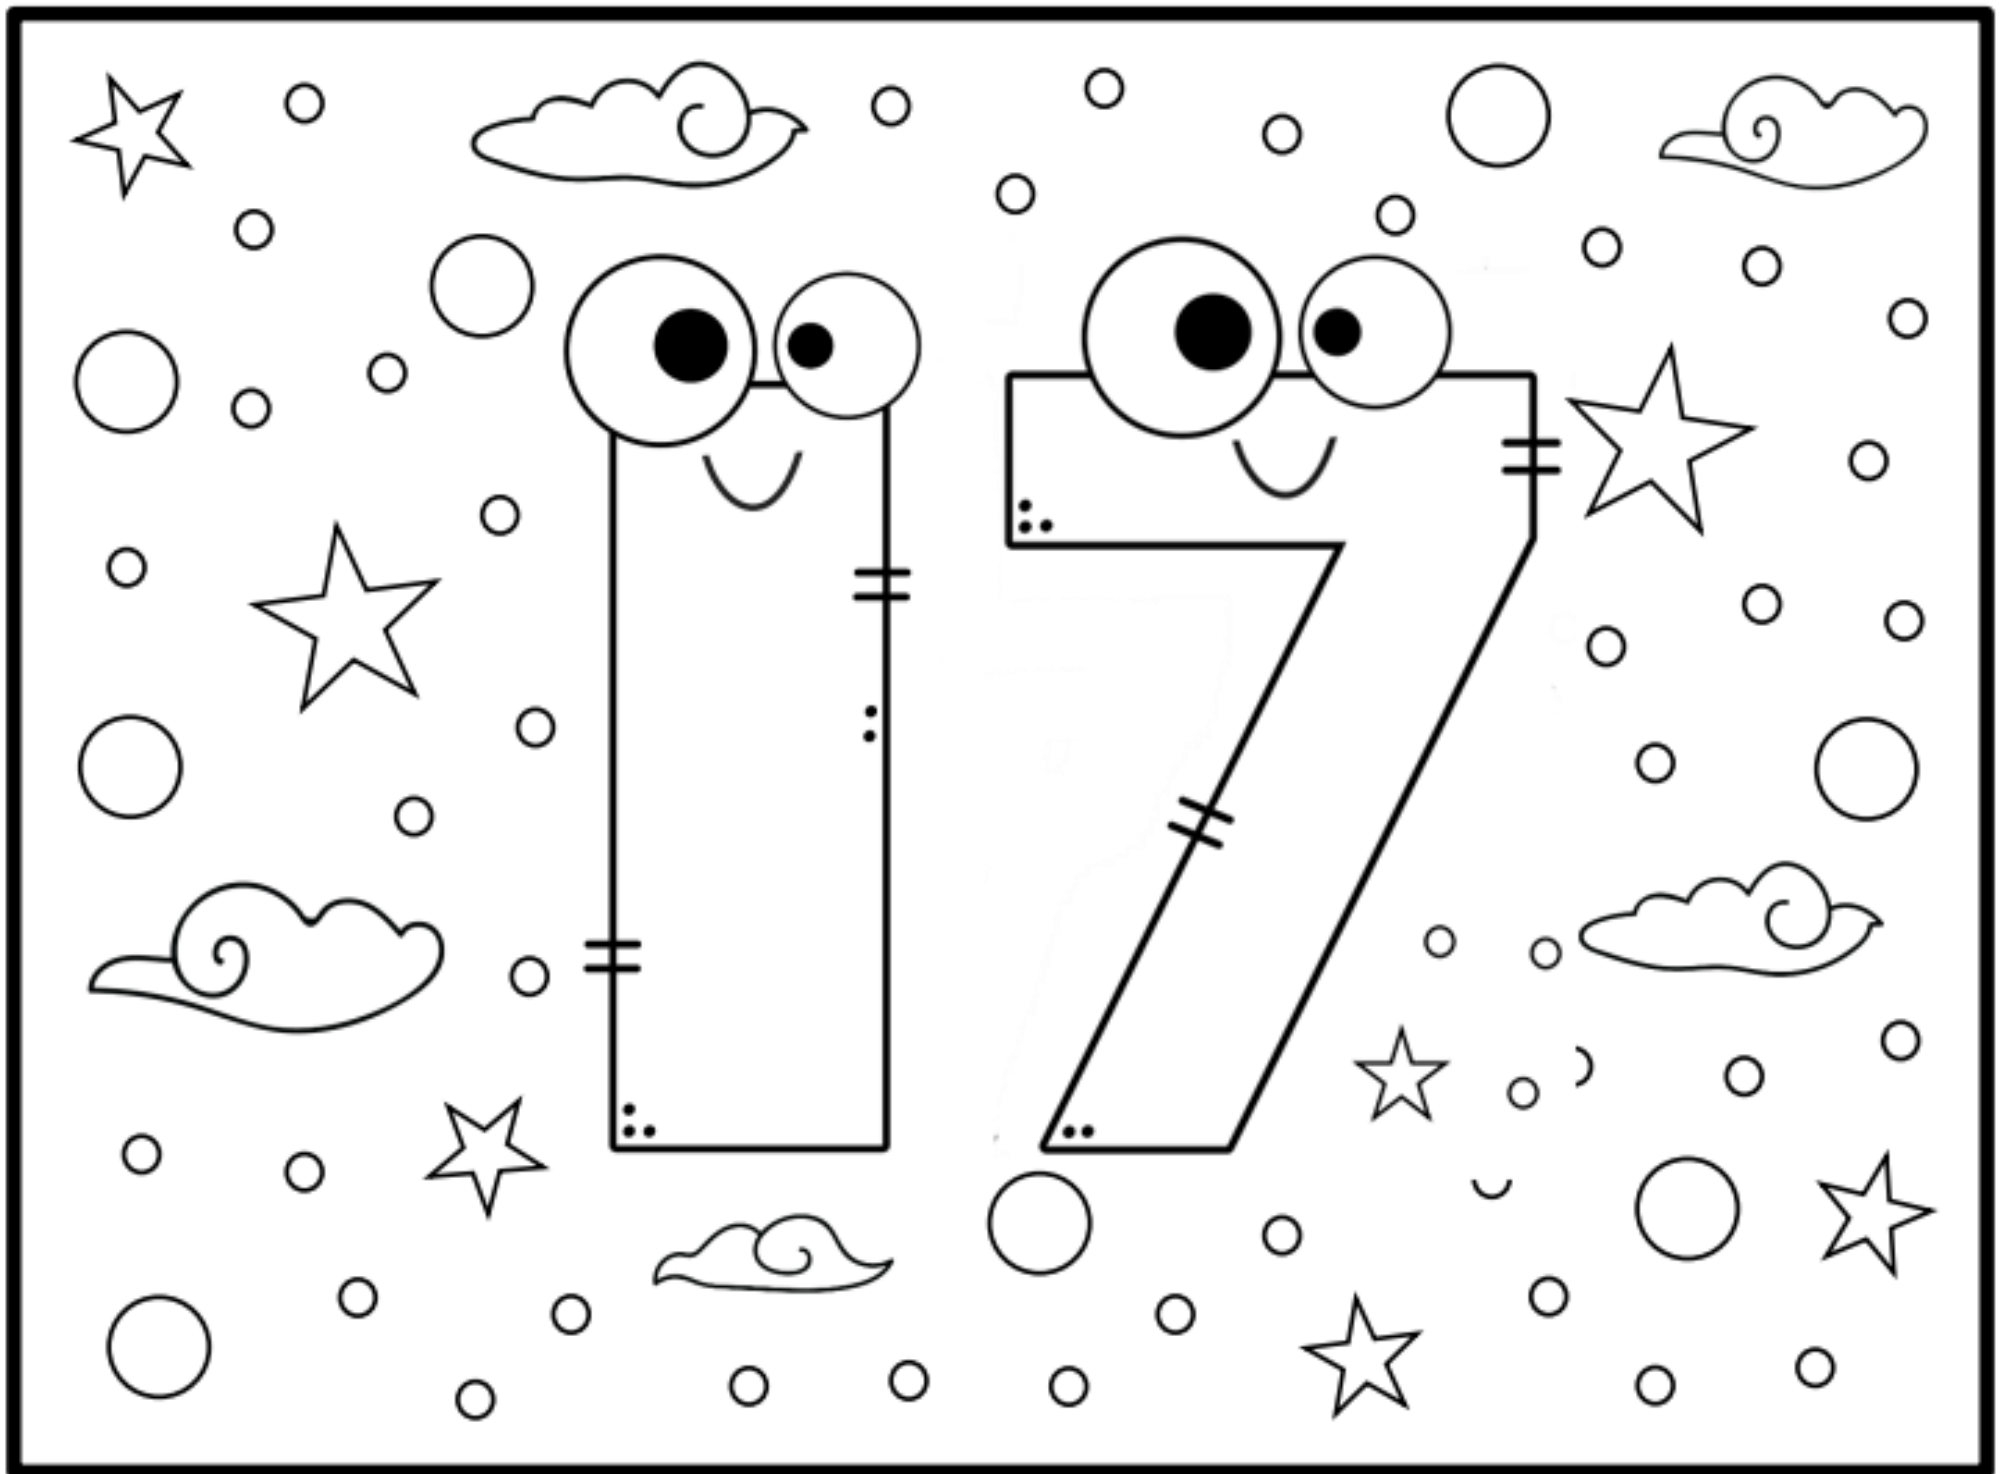

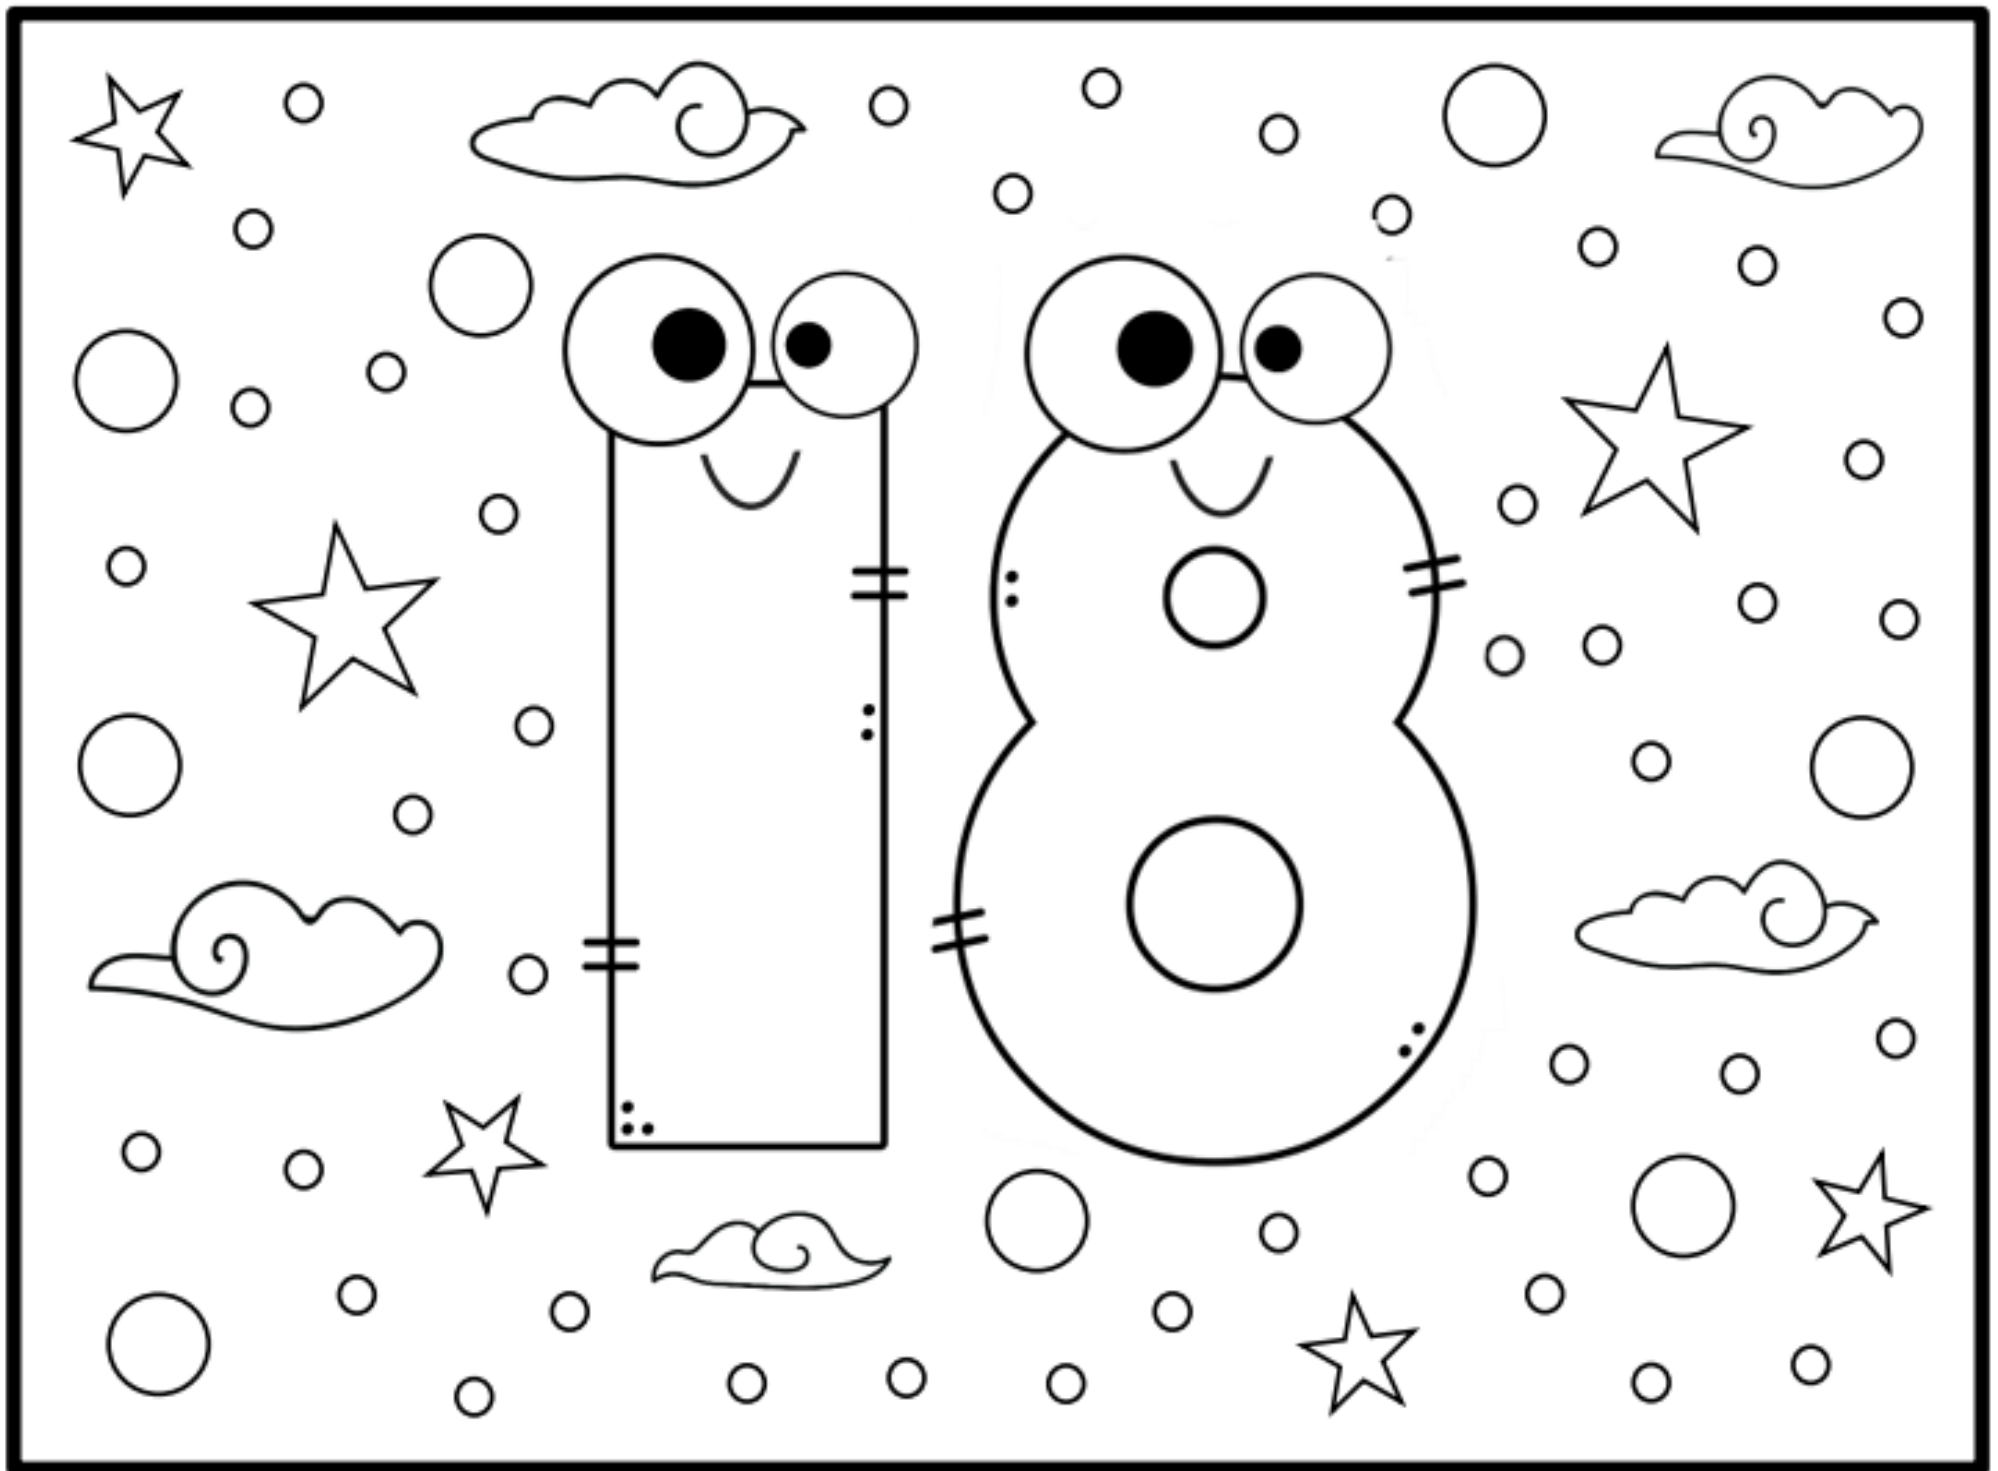

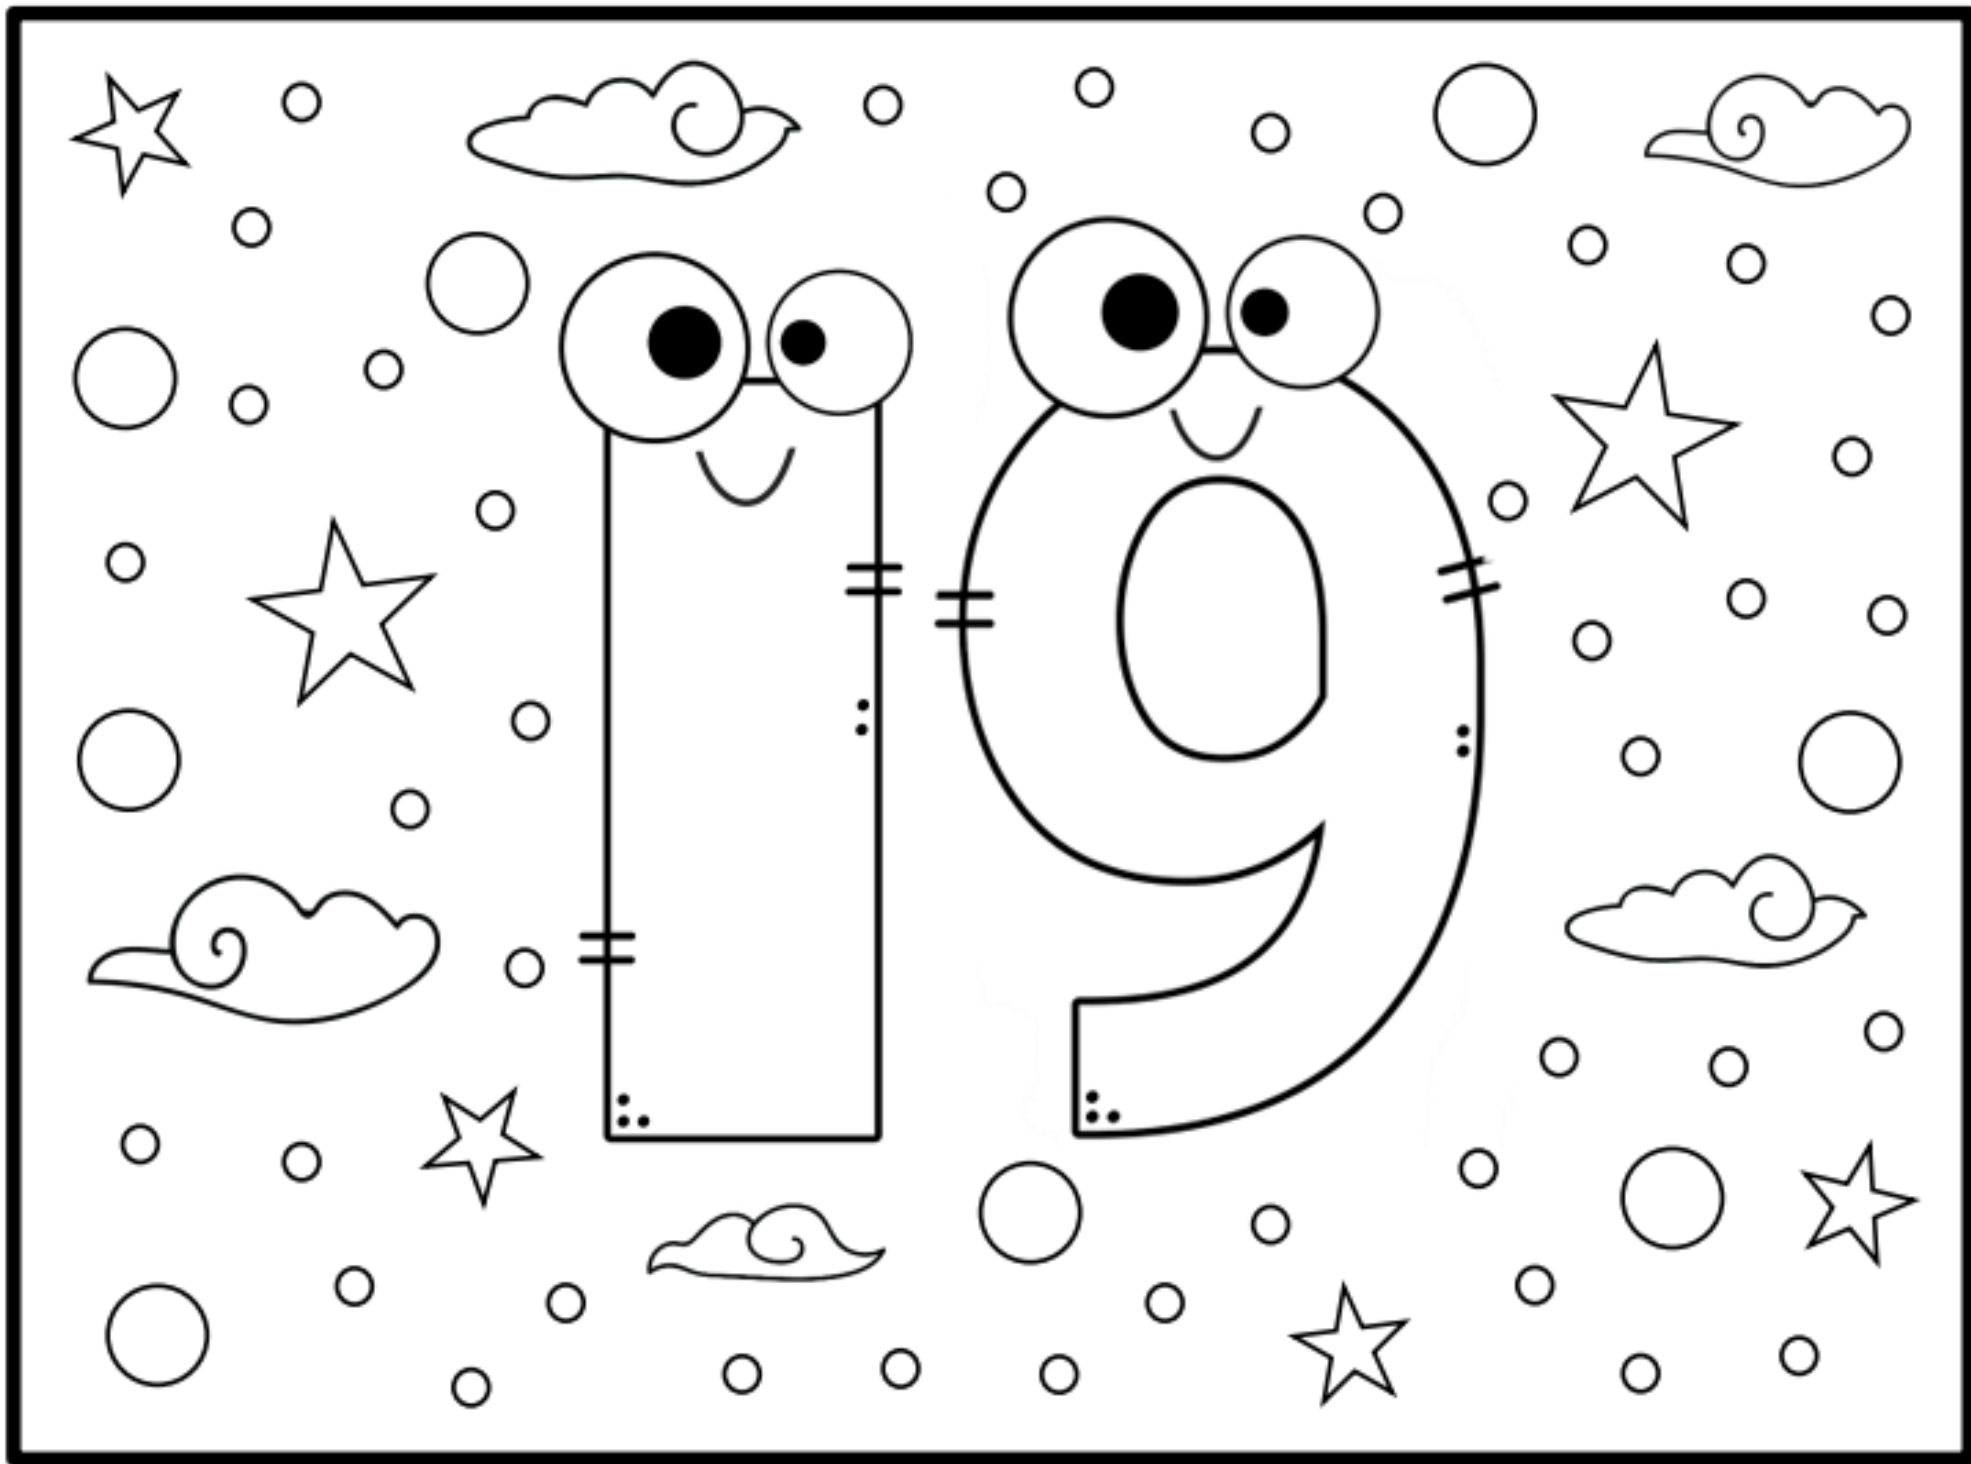

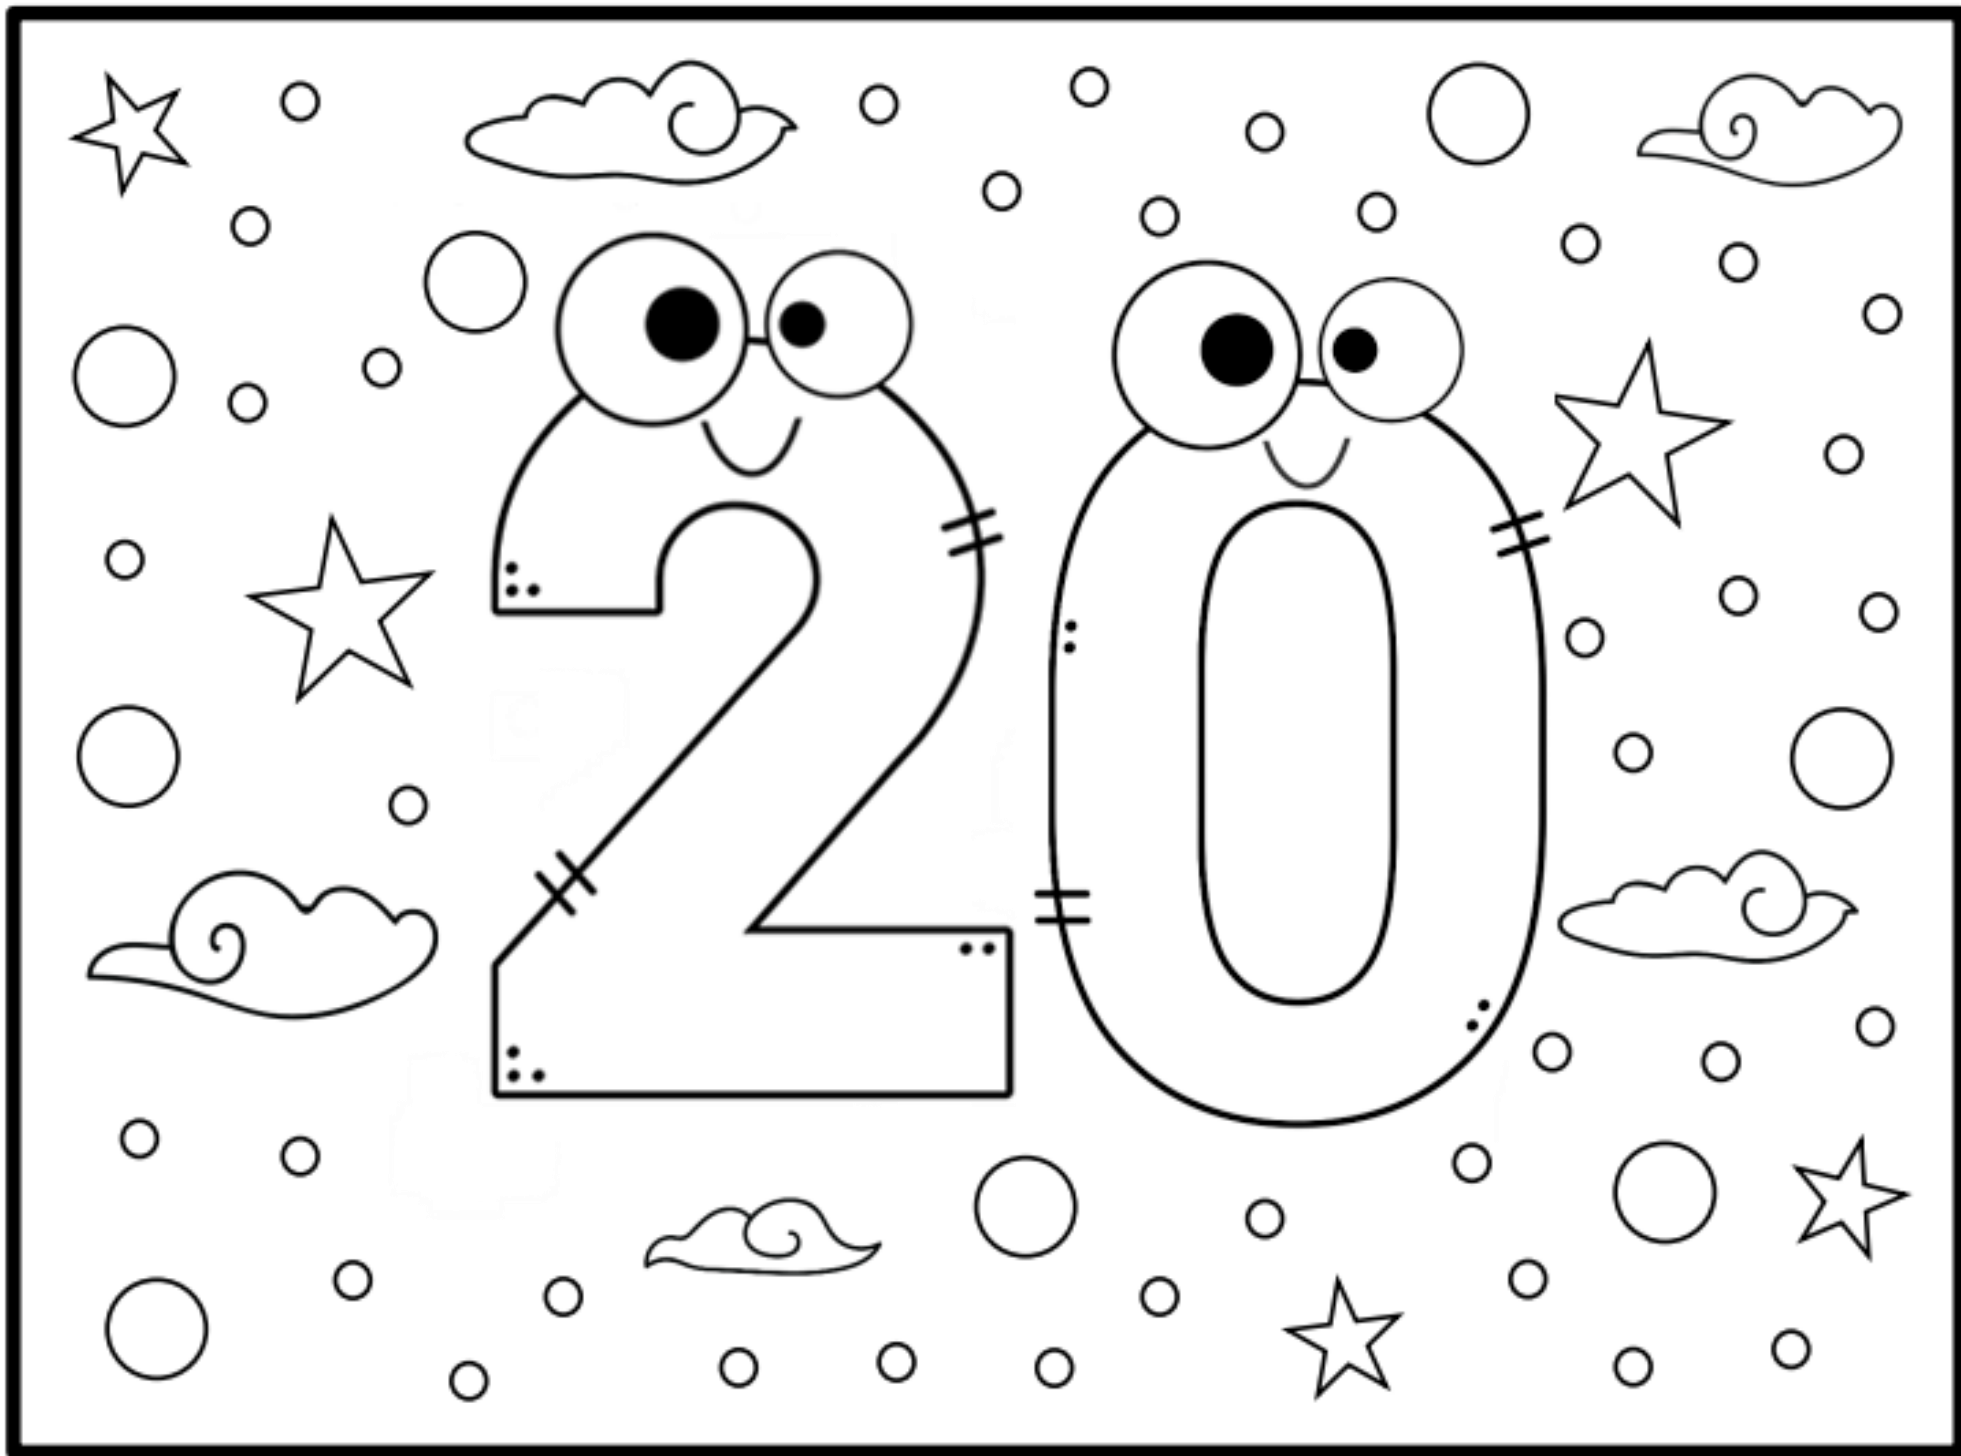

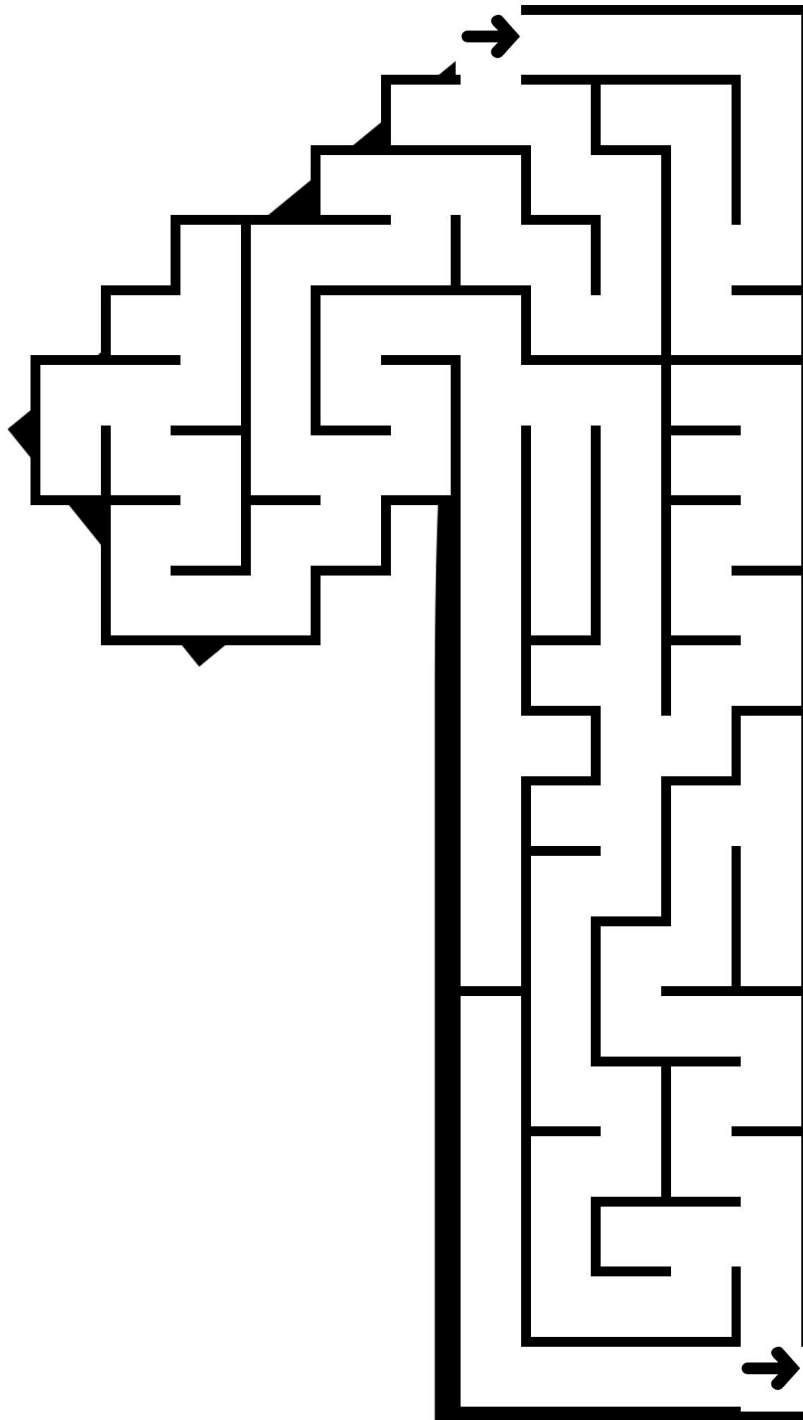

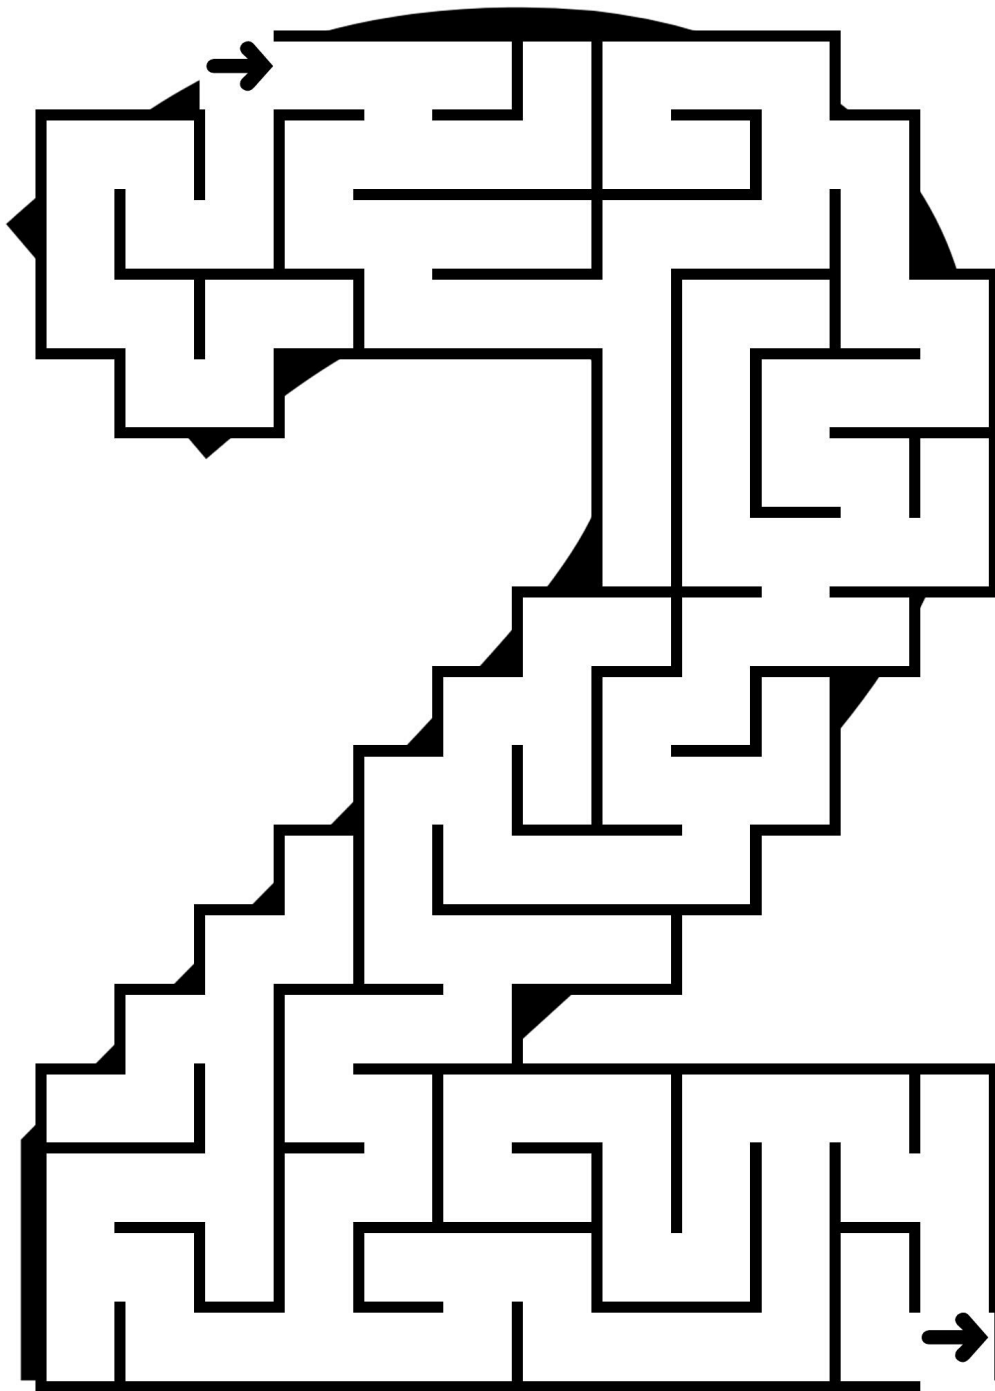

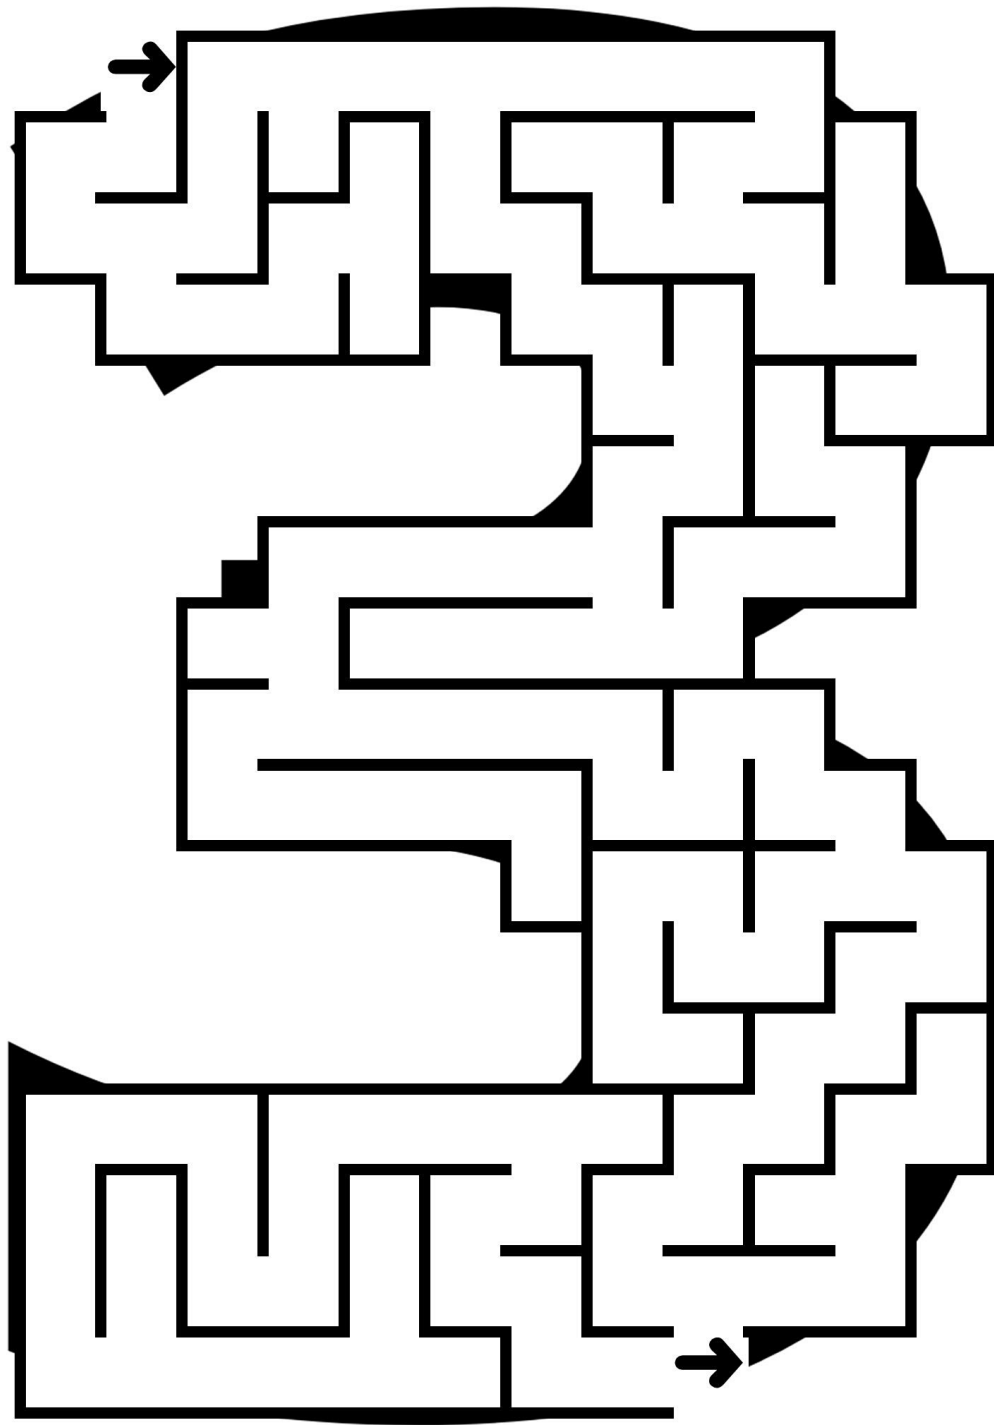

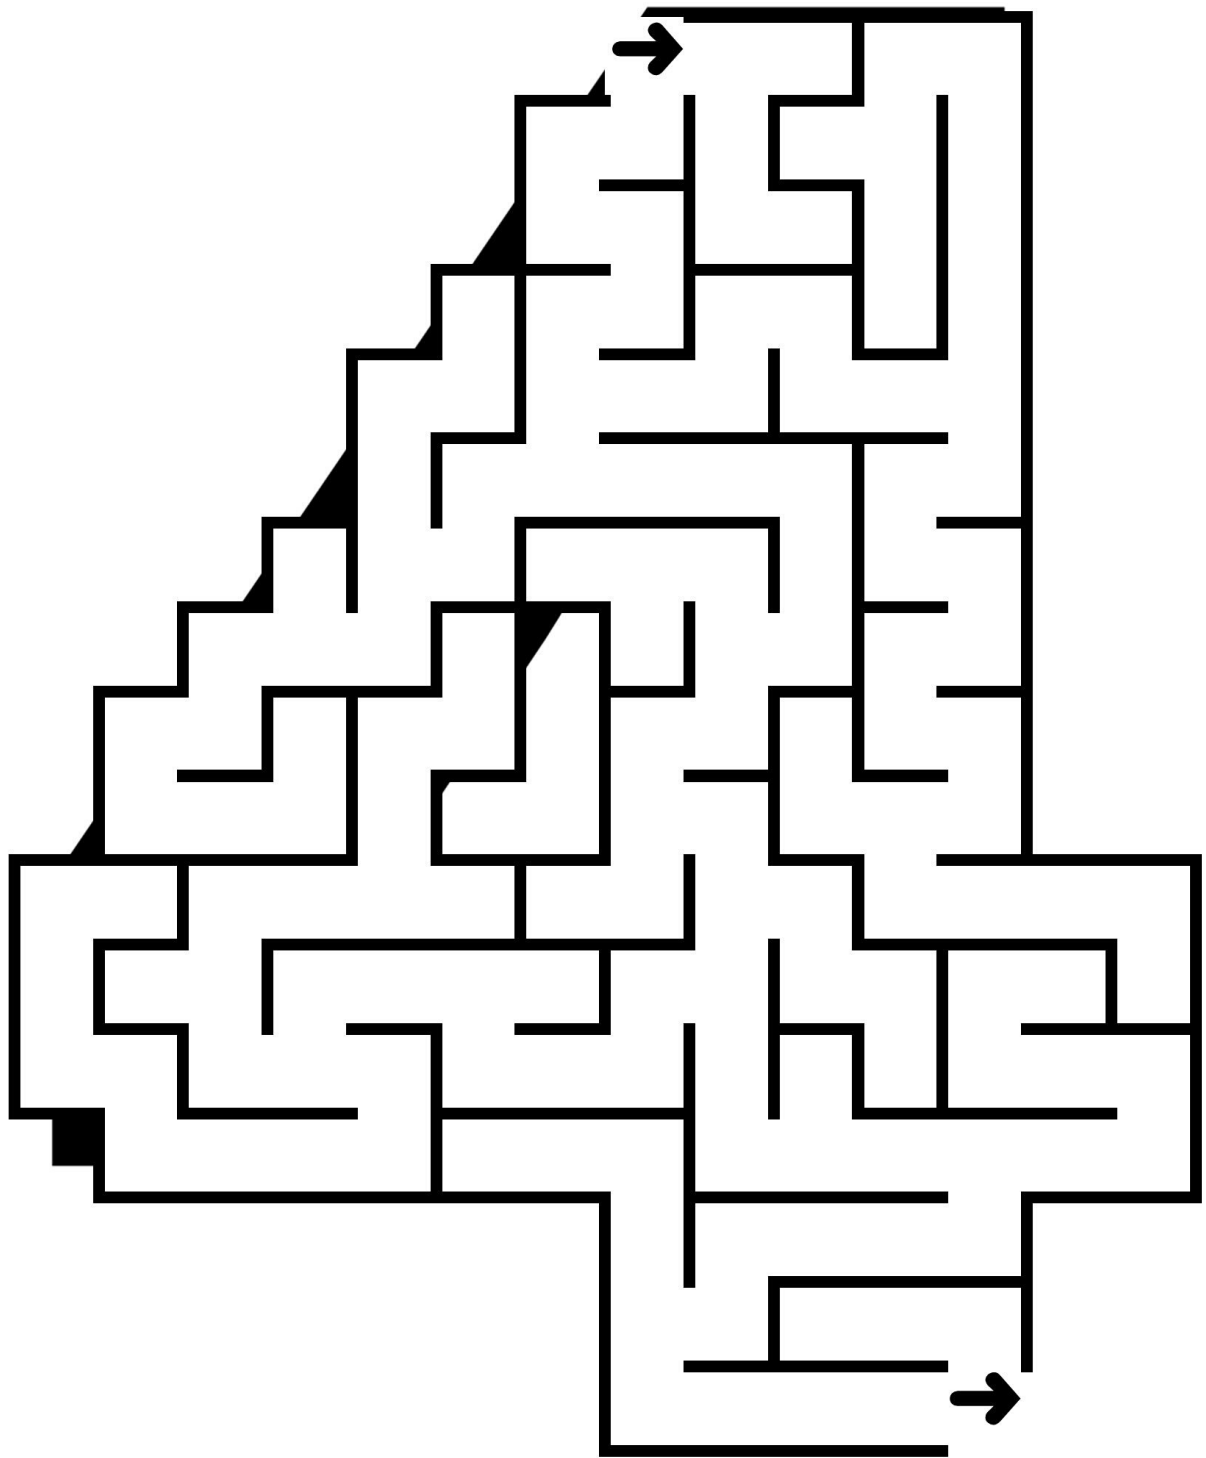

Number Mazes (1-9)

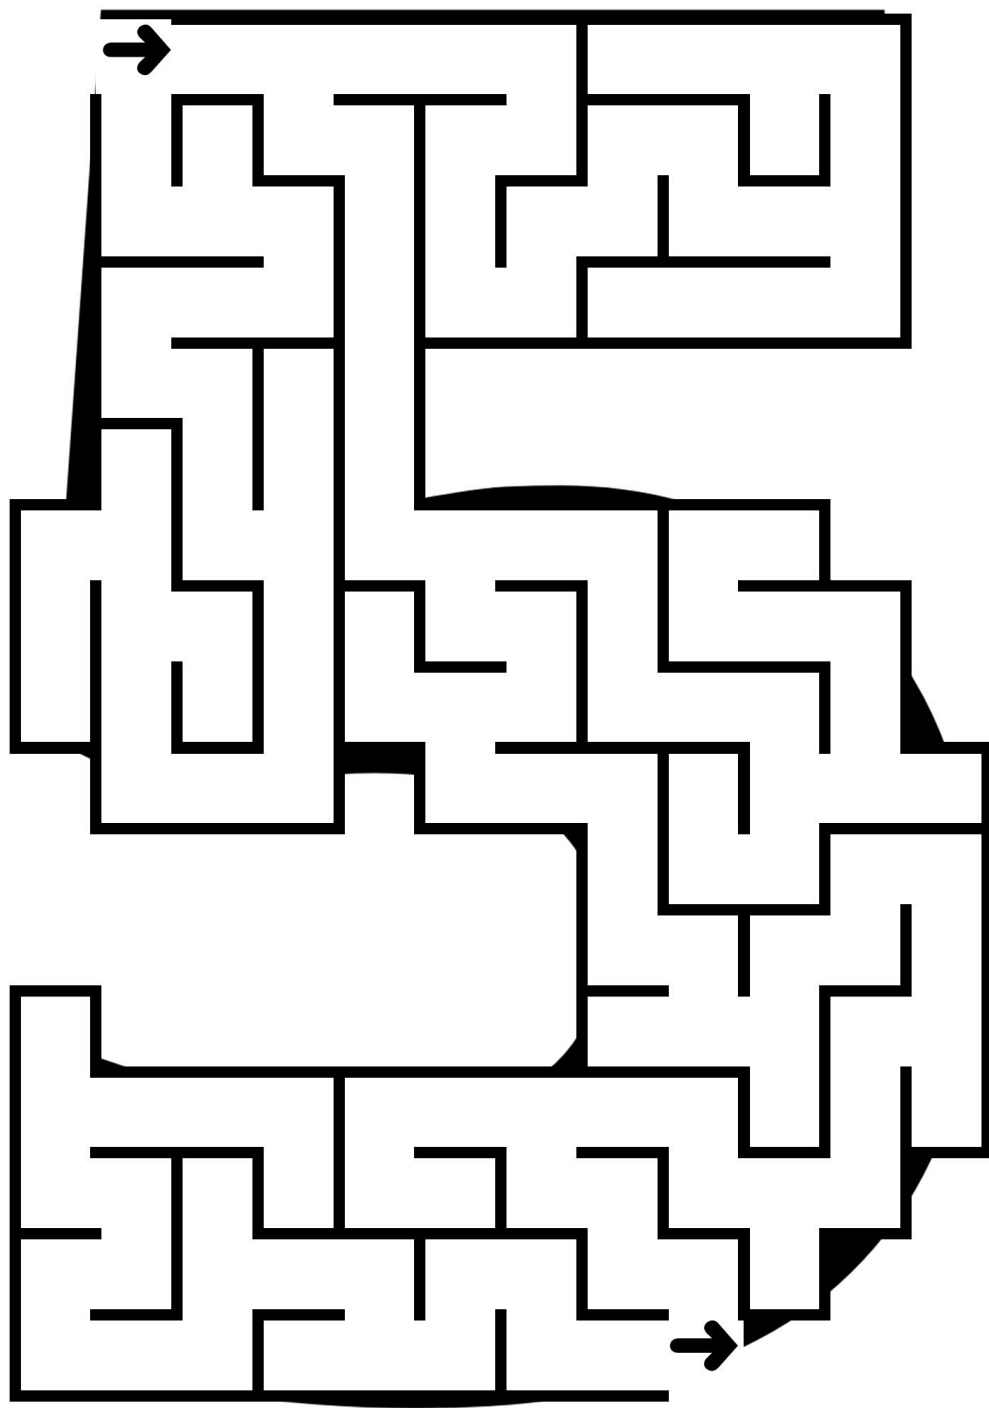

Kids love mazes, print out these number mazes as a fun way to practice number recognition. Mazes are a great way for children to practice pre-writing lines and holding their pencil correctly.

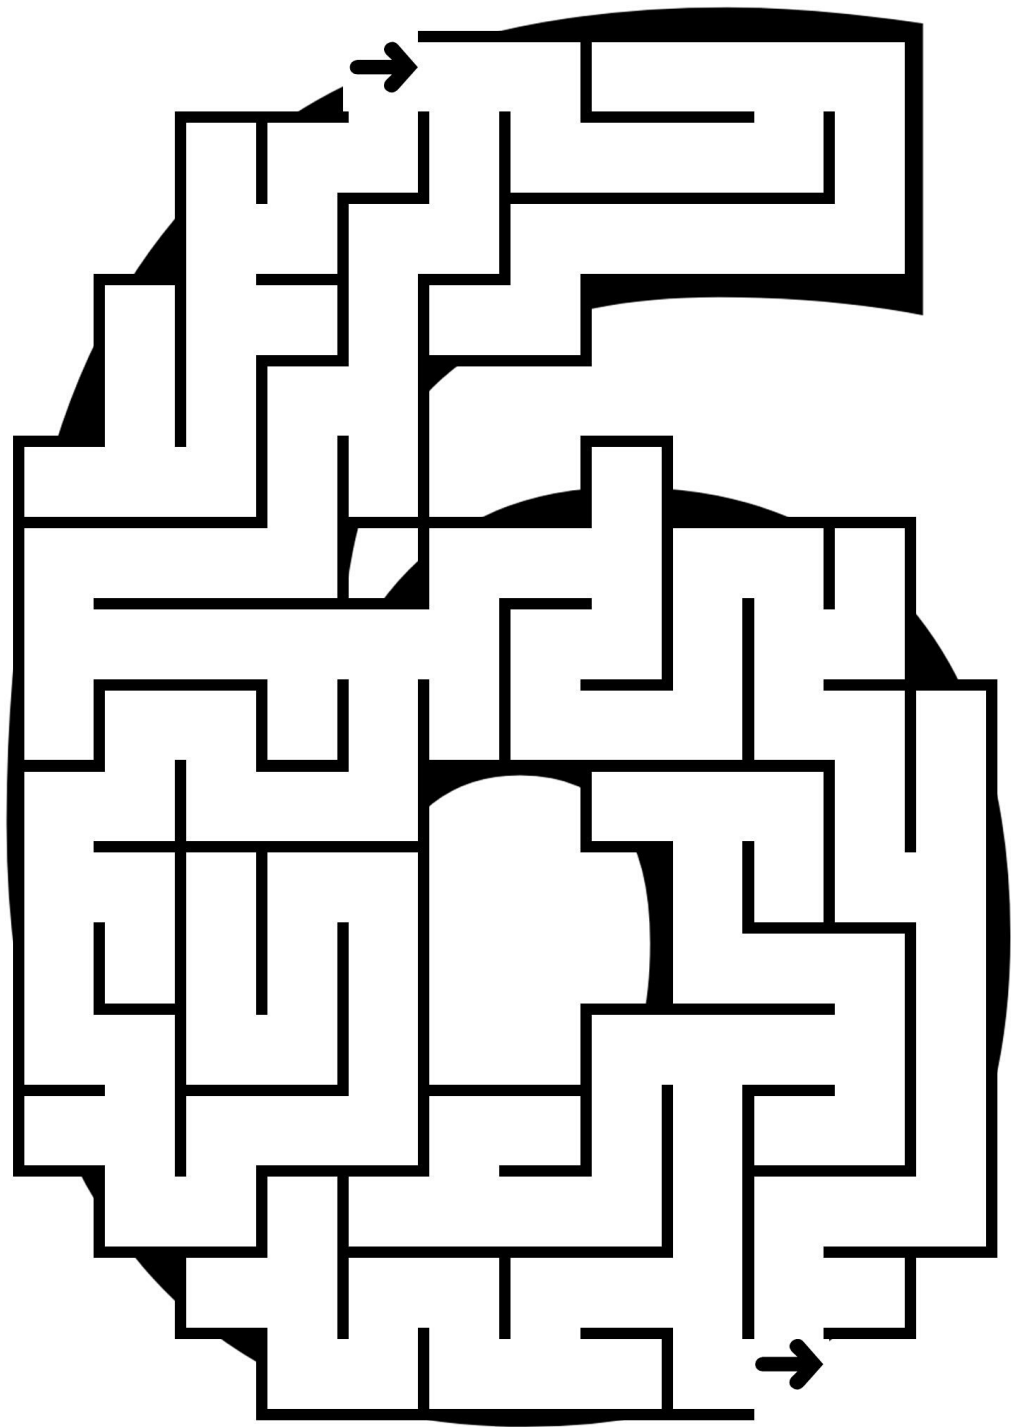

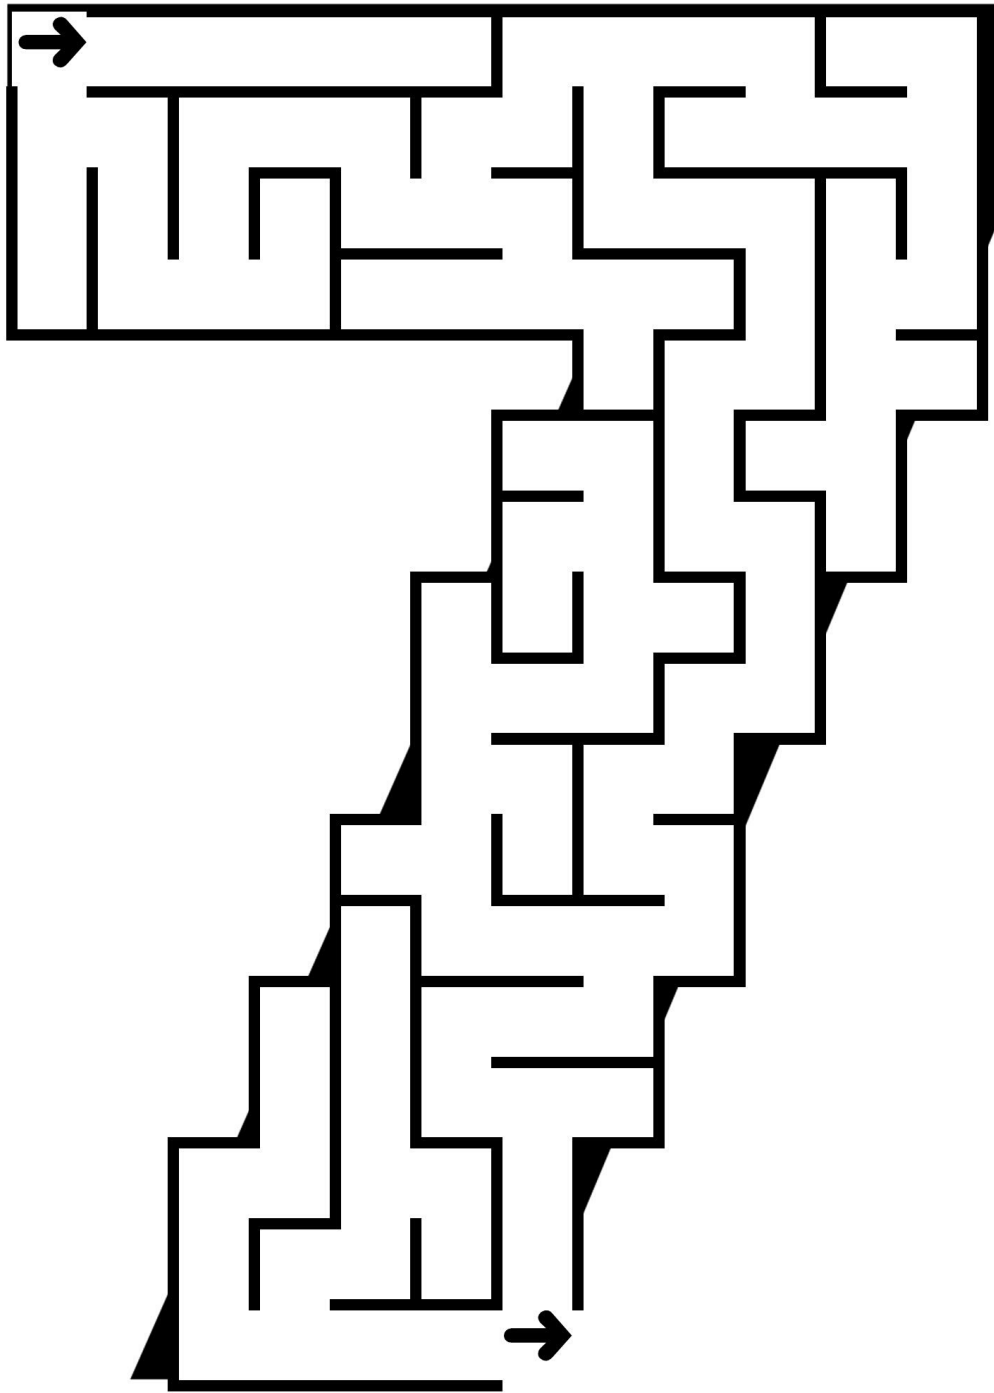

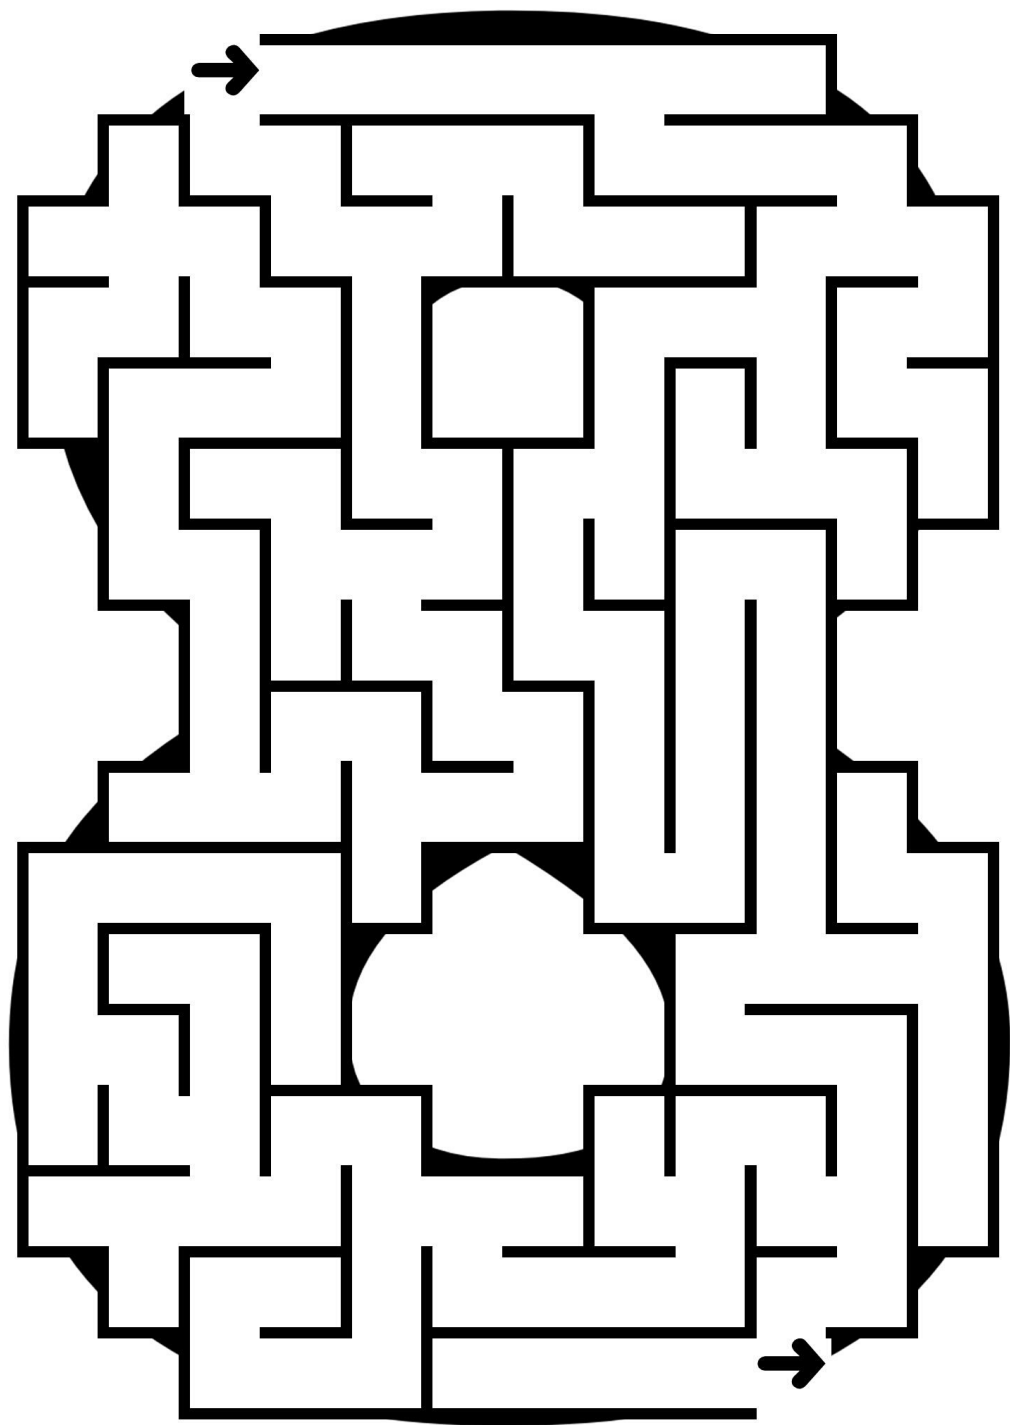

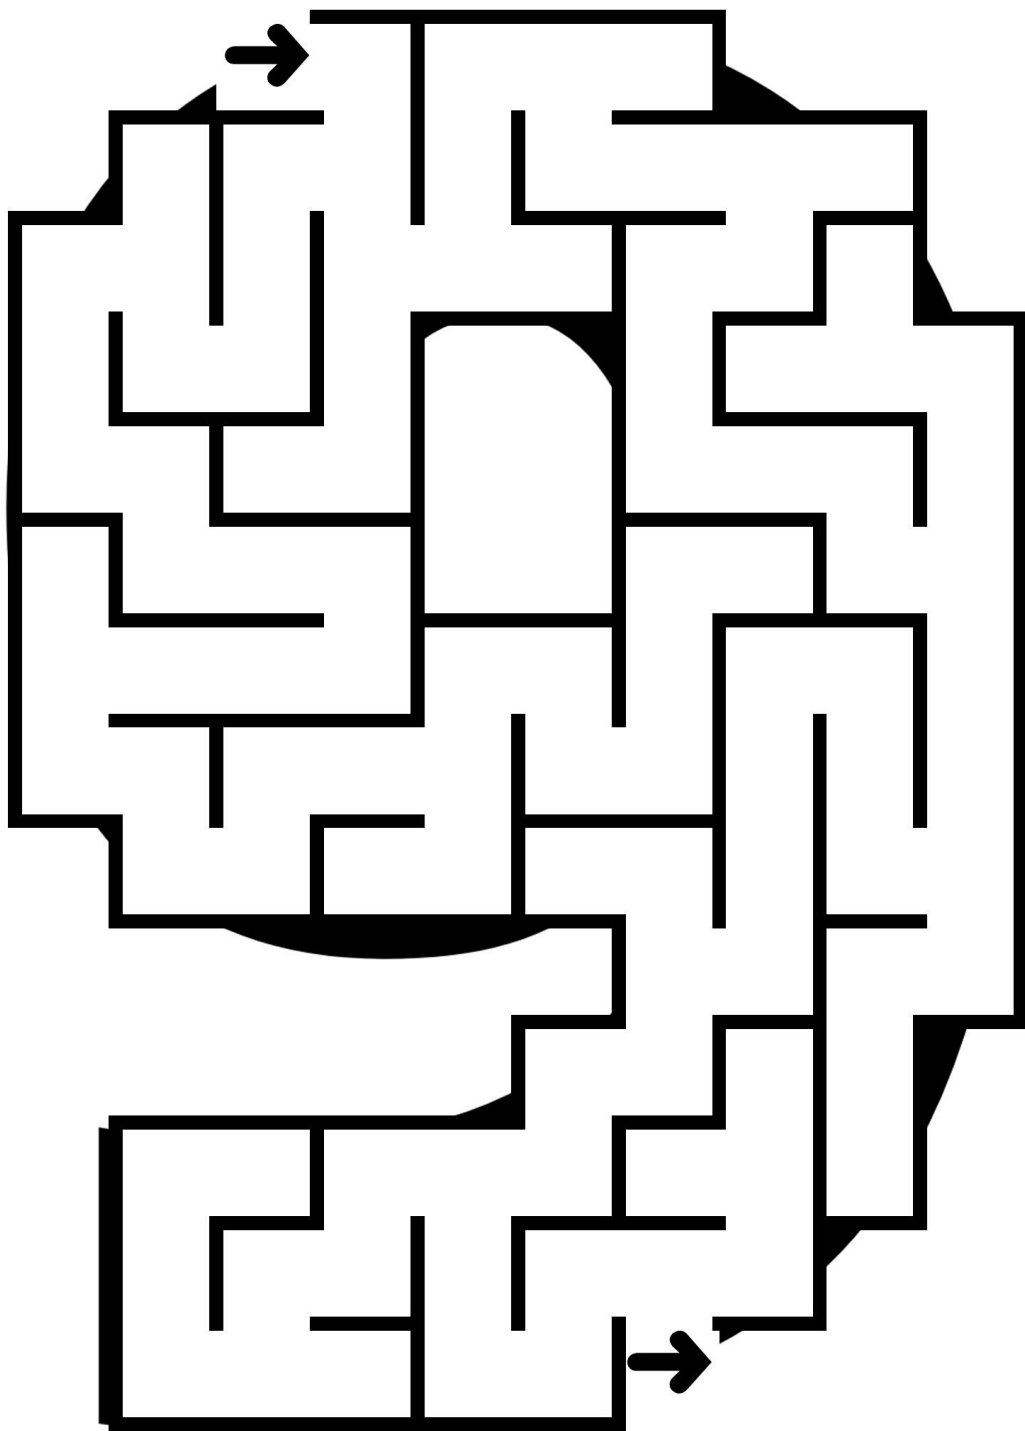

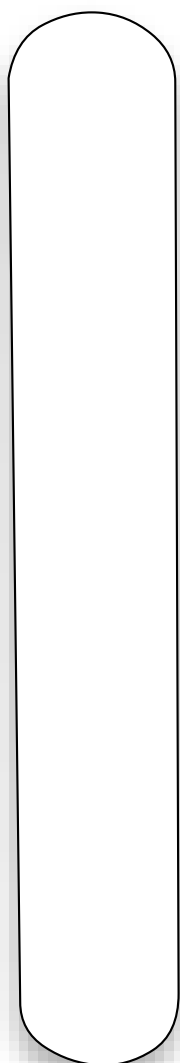

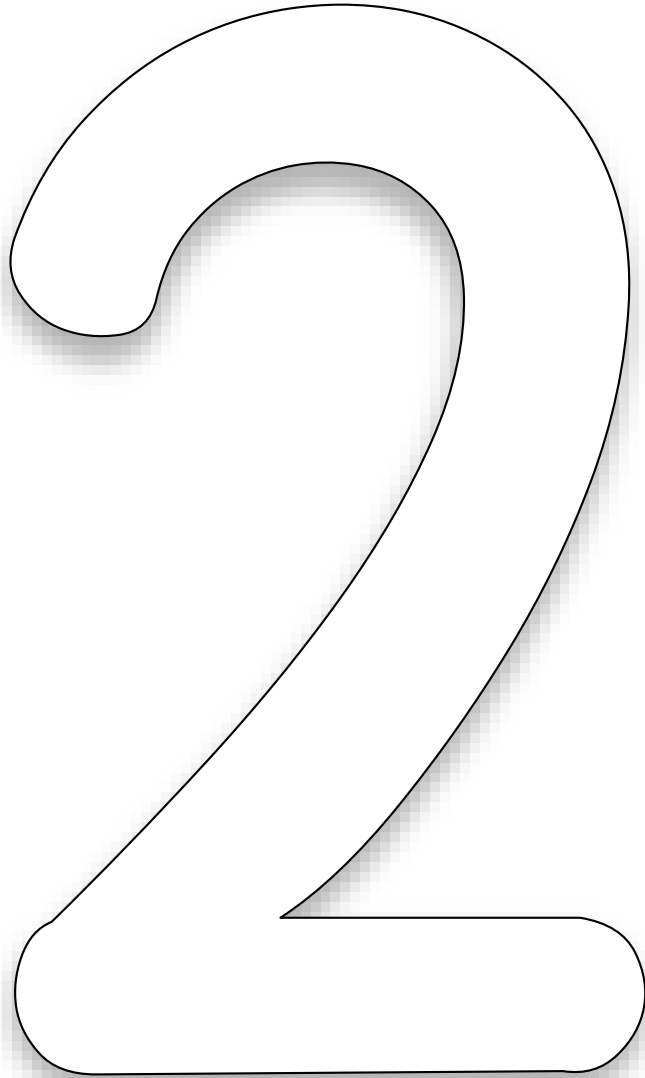

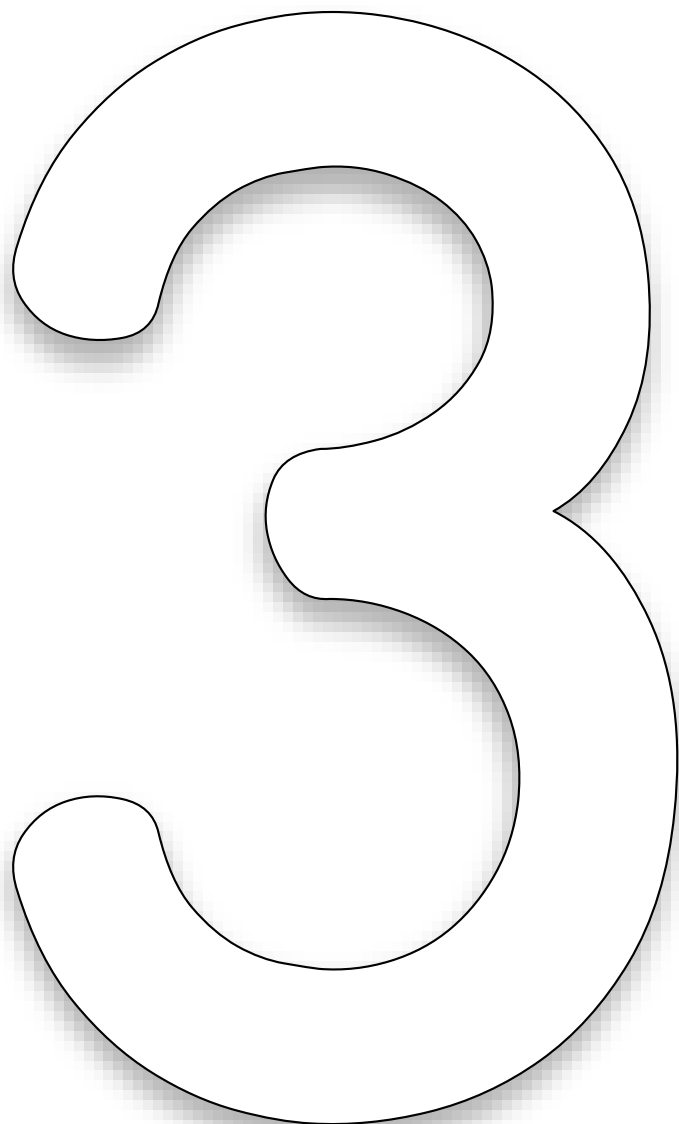

Number Outlines (1-20)

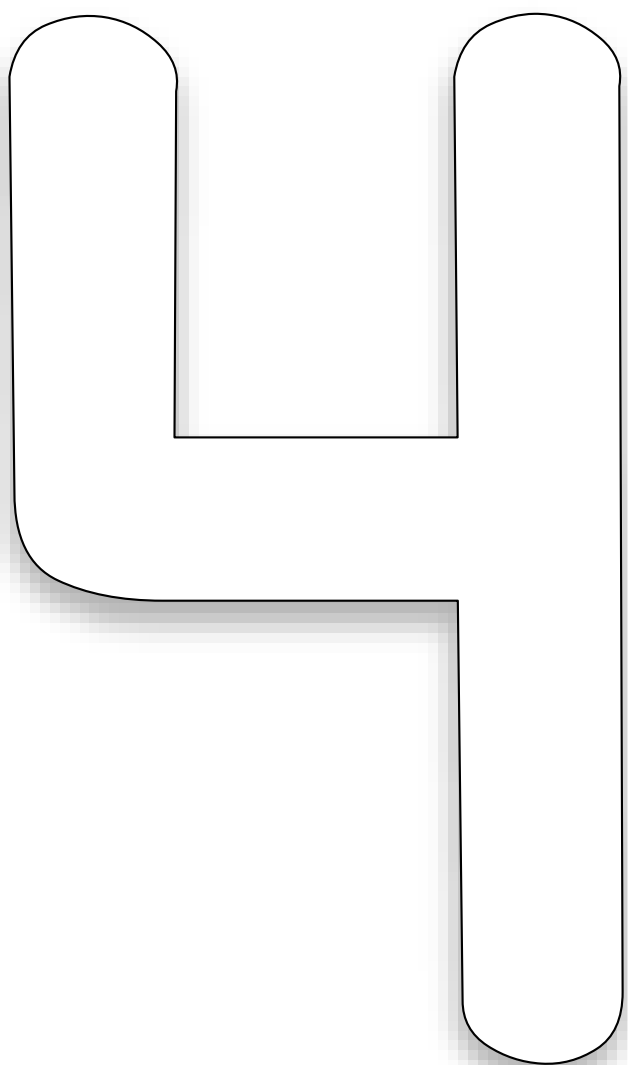

There are so many things to do with these number outlines. Here are some options:

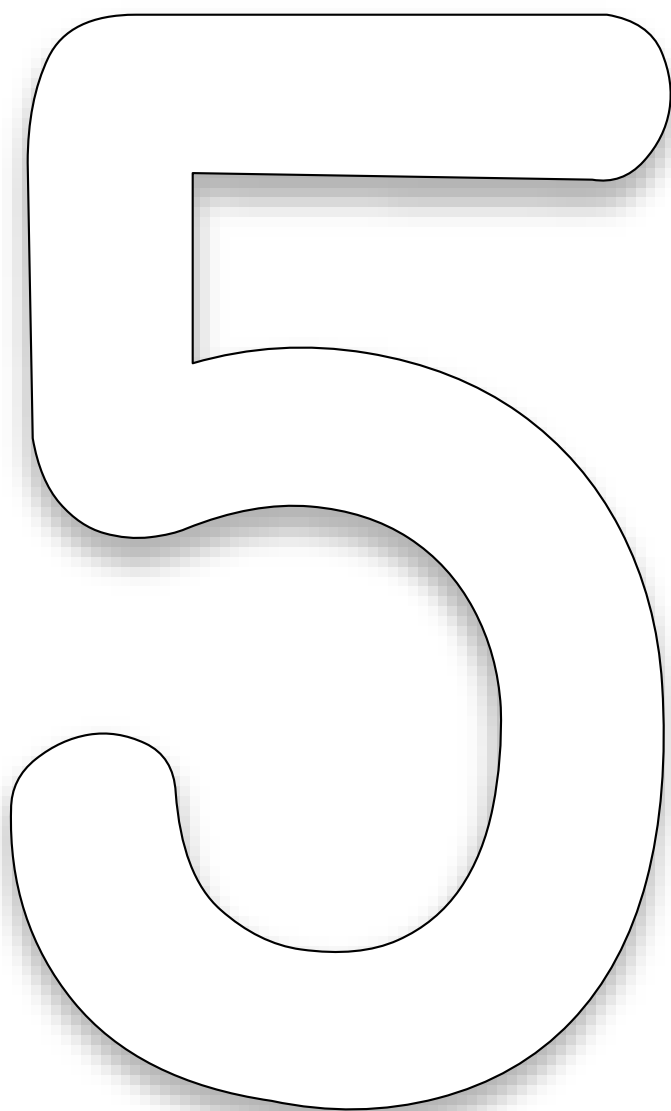

- Print the number and display it on the wall for the days you will be reviewing that number.
- Have the child cut out the number and glue it to a piece of colored construction paper.
- Print out the number page, and then stamp pictures or draw shapes that match the number around it.
- Print out the number, have the child practice writing the number by filling in the outlined shape with the corresponding number.
- Print out multiple numbers, tape them around the room, have a number hunt. Have the child search for a certain number - give them a flashlight for more fun.
- Print out multiple numbers; tape them in a grid on the wall. Have your child use a dart gun and shoot the number you call out.
- Print out multiple numbers, have your children tape them to the wall in ascending and descending order.
